### HILLCREST FOOT. BALLERS ORGANIZE

At a well attended and most enthusiastic meeting held at the Blue Goose Inn, kindly lent for the occasion by Mr. Robert Draper, the Hillcrest Football Club was organized on real business lines for 1925. The following officers were elected:

Hon. President—W. Stevenson.

Hon. Vice-President—T. O. Davies, J. Ironmonger, J. Mackie, Dr. Rose, J. C. Tonks, G. Cruickshanks, J. M. Mackie, C. P. Hill, R. Drinan and Jim Chan.

President—Ed. Royle.

Secretary-Treasurer—Bob Cherry. Committee—E. Butler, J. Price, J. Cunningham, F. Willetts, H. McDonald, Robert Draper, J. Graham.

Trainer—Arthur Watson (father).

Everything points to a good season.

It was decided to make application for admission to the Crows' Nest Pass League. Two splendid teams have been chosen for a practice on Wednesday night at 6:30.

Besides the local talent, Alex McVey and that grand old warhorse, Jock McAndrew, of Blairmore, have promised their services. Also Harry Jepson, of Bellevue. Billy Lanning, the Canadian International, who accompanied the Canadian team last summer to Australia, has promised his services when required.

It is also the intention of the management to put the football grounds into good shape, also to fence part of it in. The Blue Goose Inn will be the headquarters and the colors of Aston Villa will be sported.

Already the Intermediates are out with a very bold challenge, which may be dealt with.

It looked like old times on Monday evening to see football, baseball and lawn tennis all going at the same time. Even the women and girls are getting fit and are prepared to accept any challenge from the ladies of neighboring towns—at football and baseball.

### BLAIRMORE TENNIS CLUB

A successful meeting of the Blairmore Tennis Club was held in the West Canadian Collieries' general office on Tuesday, May 12th, at 8 p.m. The following officers were elected for the season:

President—G. A. Vissac.

Vice-President—R. Green.

Secretary-Treasurer—A. C. Hanty.

Court Committee—Ladies: Mr. J. R. Smith, Mrs. H. Pinkney, Mrs. Kerr; Men: Mr. J. R. Smith, Mr. H. M. Bennett, Mr. F. J. Wallace.

A good number of members have already joined and the courts are now being put in shape. It is expected that all three courts will be ready by the end of the month.

Anyone wishing to join the club are requested to communicate with any member of the executive.

### CITIZENS PETITION COUNCIL TO GUARD THEIR PROPERTY

A petition signed by about thirty residents of that section of the town between Third and Fifth Avenues, south of the C.P.R. tracks, has been handed to the mayor, asking that the council take action to prevent the location of an oil storage premises in that neighborhood. At present, the warehouse of the Imperial Oil Co. is located in the neighborhood and residents claim they are affected by the fumes from gas and oil. They object to the addition of the Canadian Oil Co. plant to this so-called menace.

It is not known yet what action the council will take, but in the meantime Mr. Pollock has temporarily suspended erection operations, though his material is all on the ground.

Our special sale of Ladies' Shoes are still going strong. New lines, valuer up to \$7.00, going this week at \$2.95. F. M. Thompson Co.

### COUNCIL MEETING MONDAY

The regular meeting of the town council on Monday was attended by Mayor McLeod, Councillor Patterson, Ferguson, Sartoris, Hays and Montalbetti, and Secretary Wright.

The minutes of previous regular meetings were approved as read and the following accounts were passed for payment: Alberta Government Telephones \$15.00, R. Crawford \$93.50, C. Byers \$6.00, P.O. Box rent \$6.00, West Canadian Collieries \$35.50, J. Amato \$32.00, R. McLean \$42.00, F. Amato \$32.00, A. Roberts \$30.00, Macleod Hospital \$109.50, Medical Health Officer \$500.

Resignation of R. Crawford as fire chief was accepted.

A lengthy report from the Medical Health Officer for the past year was received and ordered filed.

Amendment to the Pound By-law, introduced by Councillor Ferguson, failed to secure a second. This amendment would restrict "feathered" chickens and all "feathered" animals from running at large within the town. Other councillors failed to see eye to eye with the mover of the amendment that it could be possible for the chief of police, or anybody else, to follow in the footprints of pigeons, nighthawks, chickens, etc., without the use of an airplane and scoop. Furthermore, the pound was not a legally constituted apartment building for the accommodation of the various sets, as was Noah's ark, for instance.

The mayor informed the council that he had visited Crows' Nest Lake recreation grounds, ceded by the federal government to Coleman and Blairmore, and in company with Mayor Burns, of Coleman, had thoroughly inspected same. He stated that some funds would be necessary to erect certain small buildings, benches, swings, etc., and that Coleman was willing to come through with half the cost, providing Blairmore would do likewise. On motion the council agreed to back the necessary improvements.

### PRINCES OF SYRACUSE TO ORGANIZE AT COLEMAN

The organization of the junior order of the Princes of Syracuse, K. of P., at Coleman on the evening of Monday, May 28th, will mark a new era in Canadian fraternalism.

The new lodge is the first of its kind to be organized in Canada, but is not new by any means. It admits into membership the sons of members of the Knights of Pythias, as well as enrolling members of the senior organization in honorary capacity.

Coleman is to be congratulated upon its efforts along this line of providing for the juniors an ideal form of educational fraternalism.

Quite a number from Blairmore will join as members and honorary members. The preliminary arrangements are being looked after by Bro. Jack Woods, who holds the position of deputy grand chancellor of the Grand Lodge of Alberta, Knights of Pythias. Under his leadership the junior lodge is sure to meet success.

The organization will be effected at 8 p.m. on the evening of Monday, May 28th, on which occasion some prominent members of the order will be present. The new lodge will bear the name: "Kismet Palace No. 1, Junior Order Princes of Syracuse."

REBEKAH VICE-PRESIDENT,  
WILL VISIT BLAIRMORE

Sister Hawkes, of Calgary, vice-

president of the Alberta Rebekah As-

ssembly, will be an official visitor to

Croswell Rebekah Lodge No. 66 at

their regular meeting on Thursday

night, or next week. Notices have

been sent to all members and a rec-

ord turnout is expected. At the

meeting the beautiful and impressive

Rebekah Degree will be conferred.

## Small Deposits

# Mix Mustard this way

Mrs Keen's Mustard with water to the consistency of a thick paste. Add water until the desired thickness is obtained. If a milder flavor is desired mix with milk. Mix mustard freshly for every meal.

*but it must be Keen's.*

A Romance of the Spanish Main

## CAPTAIN BLOOD RAFAEL SABATINI

Copyright, 1922, by Rafael Sabatini

"CAPTAIN BLOOD," a Vitagraph picture with J. Warren Kerrigan in the title role, is an adaptation of this thrilling novel.

CHAPTER XIX.—Continued.  
Things had not stood at all well with him in the past fortnight, since his acceptance of the King's compulsion. There had been trouble with Bishop from the moment of landing. As Blood and Lord Julian had stepped ashore together they had been met by Colonel Bishop, who took no pains to dissemble his chagrin at the turn of events and his determination to change it.

Blood's thoughts were upon this and other things as he lounged there on the deck—but he had had a fort-night in Port Royal, his ship virtually a unit now in the Jamaica squadron. And when the news of it reached Tortuga and the buccaneers who awaited his return, the name of Captain Blood, which had stood so high among the Brethren of the Coast, would become a byword. And for what had he placed himself in this position? For the sake of a girl who avoided him personally and intentionally, he had given up that which all still regarded him with aversion. Nor was that the worst of it. He was allowed plainly to perceive that it was the graceful, elegant young trifler from St. James', Lord Julian Wade, to whom her every moment was devoted. What chance had he, a desperate adventurer with a record of outlawry, against such a rival as that; a man of parts, moreover, as he was bound to admit?

A boat that had approached unnoticed from the shore came scraping and clamping against the great red hull of the Arabella. Captain Blood rose, tall, active and arresting—elegant in a scarlet, gold-laced coat that advertised his new position.

"A note for you from the Deputy-Governor," said Jeremy Pitt shortly, as he proffered a folded sheet.

Blood broke the seal and read. "It is a very peremptory summons," he said, and passed the note to his friend. The young master's grey eyes shone with interest.

"You'll not go?" he said, between quizzical eyebrows. "What about old Wolverstone, and the others?" he cried, with a touch of bitterness. "You should have seen the danger."

"How could I in honest have defrauded them? It was in the bargain. Besides, how could their staying have helped me?" And as Pitt did not answer him: "Ye see?" he said, and shrugged. "I'll be getting my hat and cane and sword, and go ashore in

the cockpit. See it manned for me." "Ye're to deliver yourself to me in Bishop's hands," Pitt warned him.

Blood knew as well as Pitt that in going ashore that morning he carried his life in his hands. Walking leisurely, he skirted the embattled wall and passed through the great gates into the courtyard. On his right stretched a spacious garden, beyond which rose the white house that was the residence of the Deputy-Governor.

In that garden's main avenue, that was fringed with palm and sandalwood, he had caught sight of Miss Bishop alone. He crossed the courtyard with suddenly lengthened stride.

"Good morning to ye, ma'am," was his greeting, as he overtook her; and, in hand now, he added on a note of protest: "Sure, it's nothing less than uncharitable to make run in this heat."

"You take that tone!" You dare to take that tone!" she cried, astonishing him by her sudden vehemence. "You have the effrontry to upbraid me because I will not take your hands when I know how they are stained; when I know you for a murderer and worse?"

"A murderer—I?" he said at last.

"Must I name your victims? Did you not murder Leversage?"

"Leversage?" He smiled a little.

"So they've told you about that?"

"To you deny it?"

"I killed him, it is true. I can remember killing another man in circumstances that were very similar. That was in Bridgetown on the night of the Spanish raid. Mary Trall would tell you of it. She was present."

He clapped his hat on his head with a certain abrupt fierceness, and strode angrily away, before she could answer or even grasp the full significance of what he had said.

(To be continued)

"Why do you run, then?" she asked him coolly, standing slim and straight before him, all in white and very madly save in her unnatural composure. "I am pressed," she informed him. "So you will forgive me if I do not stay."

"You were none so pressed until I came."

"Since you perceive it, sir, I wonder that you trouble to be so insistent."

That crossed the swords between them, and it was against Blood's instincts to avoid an engagement.

"Faith, you explain yourself after a fashion," said he. "But since it was more or less in your service that I donned the King's coat, you should suffer it to cover the thief and pirate."

She shivered and turned aside, in some resentment and some regret. Fearing to betray the latter, she took refuge in the former. "I do my best," said she.

"So that ye can be charitable in some ways?" He laughed softly. "Glory be, now! I should be thankful for so much. Maybe I'm presumptuous. But I can't forget that when I was afraid to stay in England any longer I had a girl working for me a whole year before I was able to do without her."

Through a friend I learned of Lydia E. Pinkham's Vegetable Compound and took four bottles of it. I gave birth to a baby boy the 4th day of September, 1892. I am still doing up my laundry. Of course, I don't feel well every day but I don't get my rest as the baby is so cross. But when I get my rest I feel fine. I am still taking the Vegetable Compound and am getting along with it until cured. My nerves are a lot better since taking it. I can stay alone day or night and not be the least frightened. You can get the largest bottle of the Vegetable Compound and take four bottles of it and I will answer letters from women asking about the Vegetable Compound."

—Mrs. Carson, 2727 Fernley Street, Chatham, Ontario.

Mrs. Carson is willing to write to any girl or woman suffering from female troubles.

"So that ye may think less badly of me than you do."

"What think of you can be a very little matter to you, sir?"

"Can ye say that now? Can ye say that, beholding me in this livery of a service I despise? Didn't ye tell me that I might redeem the past? It's little enough I am concerned to redeem the past save only in your eyes. In my own I've done nothing at all that I am ashamed of, considering the provocation I received."

"I—I can't think why you should speak to me like this," she said, with less than her earlier assurance.

"Ah, now, can't ye, indeed?" he cried. "Sure, then, I'll be telling ye—Oh, please, Mrs. Trall! There was real alarm in her voice. "I realize fully what you did, and I realize that partly, at least, you may have been led by consideration for myself. Be here to me, I am very grateful. I shall always be grateful."

"But if it's also your intention always to think of me as a thief and a pirate, faith, ye may keep your gratitude for all the good it's like to do me."

A livelier color crept into her cheeks. But, as she resented his tone and his words, she stifled her resentment. She realized that perhaps she had herself provoked his anger. She honestly desired to make amends.

"You are mistaken," she began. "It isn't that."

"What is it, then?" quoth he, and added the question: "Lord Julian? Och, be frank with me," he urged her, unpardonably. "It will be a kindness, so it will."

"You are quite insufferable," she said. "I beg that you will let me pass."

"I'll not be detaining you any longer, ma'am. After all, the cursed thing I did for nothing can be undone. You'll remember afterwards that it was your hardness drove me."

"You take that tone!" You dare to take that tone!" she cried, astonishing him by her sudden vehemence. "You have the effrontry to upbraid me because I will not take your hands when I know how they are stained; when I know you for a murderer and worse?"

"A murderer—I?" he said at last.

"Must I name your victims? Did you not murder Leversage?"

"Leversage?" He smiled a little.

"So they've told you about that?"

"To you deny it?"

He clapped his hat on his head with a certain abrupt fierceness, and strode angrily away, before she could answer or even grasp the full significance of what he had said.

(To be continued)

### Use Oil on Stormy Sea

Very Little Will Surround Vessel With Comparatively Still Waters

It is surprising to learn how very little oil is required to smooth tossing ocean billows and ensure the safety of a mighty vessel. The British admiralty issues instructions as to the application of oil in storms, and points out that a very small quantity is effective in modifying the action of waves and breaking seas. A vessel going at ten knots an hour during a storm can surround itself by comparatively still waters, covered with an oily film, extending a safe distance on all sides, by allowing oil to drip on the water at the rate of little more than a pint an hour. And the effect is greatest on waves in deep water.

(To be continued)

"Why do you run, then?" she asked him coolly, standing slim and straight before him, all in white and very madly save in her unnatural composure. "I am pressed," she informed him. "So you will forgive me if I do not stay."

"So that ye may think less badly of me than you do."

"What think of you can be a very little matter to you, sir?"

"Can ye say that now? Can ye say that, beholding me in this livery of a service I despise? Didn't ye tell me that I might redeem the past? It's little enough I am concerned to redeem the past save only in your eyes. In my own I've done nothing at all that I am ashamed of, considering the provocation I received."

"I—I can't think why you should speak to me like this," she said, with less than her earlier assurance.

"Ah, now, can't ye, indeed?" he cried. "Sure, then, I'll be telling ye—Oh, please, Mrs. Trall! There was real alarm in her voice. "I realize fully what you did, and I realize that partly, at least, you may have been led by consideration for myself. Be here to me, I am very grateful. I shall always be grateful."

"But if it's also your intention always to think of me as a thief and a pirate, faith, ye may keep your gratitude for all the good it's like to do me."

A livelier color crept into her cheeks. But, as she resented his tone and his words, she stifled her resentment. She realized that perhaps she had herself provoked his anger. She honestly desired to make amends.

"You are quite insufferable," she said. "I beg that you will let me pass."

"I'll not be detaining you any longer, ma'am. After all, the cursed thing I did for nothing can be undone. You'll remember afterwards that it was your hardness drove me."

"You take that tone!" You dare to take that tone!" she cried, astonishing him by her sudden vehemence. "You have the effrontry to upbraid me because I will not take your hands when I know how they are stained; when I know you for a murderer and worse?"

"A murderer—I?" he said at last.

"Must I name your victims? Did you not murder Leversage?"

"Leversage?" He smiled a little.

"So they've told you about that?"

"To you deny it?"

"I killed him, it is true. I can remember killing another man in circumstances that were very similar. That was in Bridgetown on the night of the Spanish raid. Mary Trall would tell you of it. She was present."

He clapped his hat on his head with a certain abrupt fierceness, and strode angrily away, before she could answer or even grasp the full significance of what he had said.

(To be continued)

## WORLD HAPPENINGS BRIEFLY TOLD

All the miners in the Ruhr have joined the newly formed Rhenish-Westphalian Coal Syndicate.

More than 500,000 boys and girls are now enrolled in the farm club work of the U.S. Department of Agriculture.

The bill providing for disposal of the canteen funds of the Canadian Expeditionary Forces, passed the final stages of the House of Commons.

With very little debate the House of Commons approved the protocol between Canada and the United States, regulating the level of the Lake of the Woods.

In the hope of recouping the pearl industry in the Philippine Islands, the government has ordered the pearl banks around the Sulu archipelago closed for three years.

In spite of an appreciable decrease in the quantity of traffic handled, Canadian railways, as a whole, increased their operating revenue during last February, as compared with the same month in 1924, by \$86,349.

The House of Commons has passed a resolution giving sections in certain sections of Southern Saskatchewan and Southern Alberta priority in the opening of further homesteads in these sections.

According to advice received at Tokio from Seoul, Korea, a devastating forest fire started near Kankyo, Hokkaido province, sweeping through numerous villages and leaving thousands of persons homeless.

An increase of 65,271 in the total number of motor vehicles registered in Canada is shown for the last year as compared with 1923. Registrations in passenger cars and minivans increased an increase of 58,798 and 1,316 respectively. In 1924 as against the previous year.

**Japanese Launch Fine Cruiser**  
The Japanese navy's new cruiser, Saka, was successfully launched recently at the Yokohama quays. The cruiser is a vessel of 15,595 tons displacement, has four funnels and can make 33 knots, it is said. It is the largest warship ever launched at Yokohama, officials stated.

## "A Babe in the House Is a Well-Spring of Pleasure"

—Evans Studio

Mrs. Carrie Peckham of 827 Van St., London, Ont., says: "I told Dr. Pierce's wife, Mrs. Peckham, that I had no last expectancy to keep up my strength. I had no sick stomach, nor any other distressing ailment such as usually comes to the prospectus men. The medicine was just as fine and well as can be. He is now eight months old and has never known a sick day. I could never imagine any improvement. Dr. Pierce's favorite prescription as a tonic and nerve in young motherhood, for I know that it helps in many ways, but this 'Prescription' from your neighborhood druggist, is either liquid or tablet form, and write Dr. Pierce's Invalids. How in Butte Pierced for continued medical advice. Send 10 cents to Dr. Pierce's Laboratory, Bridgeport, Ont., if you wish a trial package of tablets."

## Making Arctic Trip Safe As Possible

**U.S. Navy Department Will Hold Dirigibles Ready in Case of Emergency**

With a view to affording a means for speedy rescue in case of mishap to the McMillan expedition, which will start for the polar regions in June, plans will be made by the Bureau of Aeronautics of the U.S. Naval Department to dispatch the dirigible Los Angeles, or her sister ship, the Shenandoah, from Lakehurst to Etah, Alaska, should an emergency call be raised by the men while mapping the unknown region between Alaska and the North Pole.

For the first time in the history of Arctic exploration, an agency is at hand to assure a quick response to any call of distress that may be raised by MacMillan. The availability of radio intelligence and the ability of the navy to rush the Los Angeles or the Shenandoah to the rescue should the need arise, lends an element of safety to this expedition which was lacking in those that have penetrated the far north in the past.

### Visit Of Earl Haig

#### Will Attend Convention of British Empire Service League

Field Marshal Earl Haig, who had command of the British armies in France and Belgium during the greater part of the war, is coming to Ottawa towards the end of June to attend a convention of the British Empire Service League. Delegates to the convention are coming from all parts of the British Empire. The British Empire Service League is an ex-soldiers' organization. The arrangements for the convention in the Canadian Capital are being made by the Dominion Command of the Great War Veterans' Association. Earl Haig will be the guest of His Excellency Sir Byng of Vimy, Governor-General of Canada, who was one of the leading generals under Field Marshal Haig during the Great War. He intends to visit a number of places in Canada.

Miller's Worm Powders can do no injury to the most delicate child. Any child, or any infant, in state of adenitis, who is in inverted position, can take this preparation without a qualm of the stomach, and will find in it a great relief and a full protection from the disease. It is a preparation which is responsible for much sickness and suffering to legions of little ones.

### British Empire Exhibition

#### Many New Features Are Being Shown This Year

Practically all the dominions and colonies are again exhibiting this year at Wembley. The principal exhibits and buildings are devoted to Canada, India and Australia.

Among the new features to be shown at the exhibition will be a toboggan slide of 400 feet on real ice modelled on the lines of the famous Cresta run of Switzerland. The exhibition, in full operation, employs 25,000 persons. The daily average attendance at last year's exhibition was 110,000, the maximum daily attendance being 221,000 persons.

The exhibition will continue until September, when it will close and fade into history, as there is little probability of it ever being held again. The exhibition will not be open on Sundays.

### The University Of Jerusalem

#### Will Prove of Great Value to the Jewish People

The new University of Jerusalem may be the beginning of a new renaissance of the east. But it may have an even greater value to the world than that. The Jewish genius, given a national home, and equipped for the first time for nearly two thousand years with a nerve-centre of its own, may give the world a foretaste of new thought and ideas comparable to its past.—Manchester Guardian.

### Purchase Prize Cattle

#### Livestock Producers' Association to Exhibit in Scotland

A large number of prize cattle exhibited at the recent Calgary show have been purchased by the Livestock Producers' Association, in order that a complete demonstration may be given this year in Scotland by the company of what the Western Canadian farmers can do in finishing steers.

No surgical operation is necessary in removing corns if Holloway's Corn Remover is used.

A favorite delicacy of the Eskimos is a dish of good, hard and even half-hatched eggs, mixed with angelfish and chokeberries; and thrown into a seal skin bag filled with whale oil.

## Negotiated Huge Credit

MONTAGU NORMAN

Governor of the Bank of England, who conducted the preliminary negotiations at Washington and Wall Street in connection with the \$300,000,000 credit Britain obtained before returning to the gold standard.

### Keeping Our Curiosity

#### Wondering About Things Makes Life More Interesting

There is perhaps only about one childlike quality that should stay with us all our years, and that is our curiosity. If we keep on asking questions and wondering about things, life will keep on being interesting and fresh and stimulating and growing bigger and better every day. But if we allow the routine of things, or a desire for security, to control us, we shall largely go out living with the possibility of progress, and we will stand cumbered without prejudices and all the hampering lumber of life.

And strange as it may seem, there will probably be many more questions to ask when one is eighty than there were when he was eight. Indeed, it is only when one has lived long and thought deeply that he begins to understand how to ask questions, and to see how big is the world that he does not know.

## CLIPSE FASHIONS

Exclusive Patterns by Mail Order

1053

1053

A Variation of the Straight-line Frock

The silhouette still follows straight and slender lines, but much more is often added at the lower portion of the skirt by means of the circular flounce. A smart combination of material is achieved by using a wide material for the bodice and a smaller portion of the dress, and soft black satin for the collar, circular flounce and loosely knotted string ties. The waist is pleated, and the bodice has a slim blouse with a seam on shoulder, and convertible collar. It is an unusually smart design for afternoon wear, and in size 34-36-38 inches.

As shown, size 36 requires 3 yards 36 or 40-inch material for the upper part, and 1½ yards for the flounce. If dress is made of one material, size 38 requires 4½ yards of 36-40-inch.

## SUNDAY SCHOOL LESSON

MAY 17

### SAUL BECOMES A CHRISTIAN

Gospel Text: If any man is in Christ he is a new creature. 2 Cor. 5:17

Lesson: Acts 9:1-19.

Devotional Reading: Psalm 32:1-10.

The Text Explained and Illumined

Saul the Persecutor, verse 1, 2, contrasted with Phillip's zeal in furthering the gospel. Saul had now records Saul's zeal in hindering it, and begins his sentence therefore with a but. By means of vivid imagery, Luke shows us Saul's presence brought terror to the hearts of the disciples whom he hunted; "but Saul, yet breathing threatening and slaughter, accosted them of the Lord, went unto the high places."

The metaphor is based on the fact that a person under stress of a great excitement breathes rapidly, in his effort to give expression to his thoughts.

From the high priest Saul asked and readily obtained letters, to the synagogue in Damascus to follow where Christ had yet withdrawn from the Jewish synagogue.

The number of Jews living in Damascus was large; in a tunnel under the ground thousands perished to death.

The letters given him permitted him to arrest believers, whether men or women, and bring them bound to Jerusalem.

Paul was intended to go to Jerusalem like a Roman conqueror with his captives.

At Jerusalem the captives were brought before the Sanhedrin for trial.

The pride of his Pharisee's heart struck out the idea to reverse the maxims of the Crucified Leader of the hated sect, and go into all the world and supply them in every creature.

(Henry Drummond.)

## Phone-Film Is a Success

### New Scientific Achievement Marked By Broadcasting of Address

An address by President Coolidge in which he sounded a message of peace and prosperity, was broadcast from a specially prepared phone-film made at the White House, marking what was said to be the first attempt ever made to broadcast a voice from the motion picture screen.

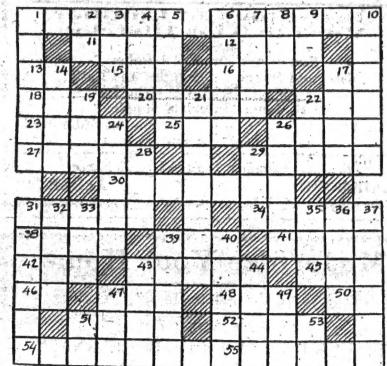

The film which recorded both the movement and voice of the president was shown at the Friars Club to visiting editors and publishers in New York; dinner guests of M. Koengsberg, president of King Features Syndicate. International News Service and Universal Service. Daniel de Forest personally supervised the making of the film and its projection, while the Radio Corporation of America took charge of the broadcasting.

### A Powerful Projectile

Armor Piercing Shell Perfected For

the British Navy

An armor piercing shell has been perfected for the British navy. Its mighty power to crush its way through the protective armor of battleships would have been thought impossible a few years ago, according to Sir Robert Hadfield, whose firm has perfected the shell. The shell is for 16-inch guns.

Sir Robert said he was not at liberty to disclose the tests applied to the projectile, but energetically remarked that "the dream of experts and metallurgists for years has come through."

"I tried everything I could get but nothing helped me. I began using Cuissons Soap and Ointment and found that it did the trick," he said.

"I treated the gun barrel with the soap and ointment and the gun worked perfectly. I had to paint the gun barrel with the soap and ointment and the gun worked perfectly."

"I tried everything I could get but nothing helped me. I began using Cuissons Soap and Ointment and found that it did the trick," he said.

"I treated the gun barrel with the soap and ointment and the gun worked perfectly."

"I tried everything I could get but nothing helped me. I began using Cuissons Soap and Ointment and found that it did the trick," he said.

"I treated the gun barrel with the soap and ointment and the gun worked perfectly."

"I tried everything I could get but nothing helped me. I began using Cuissons Soap and Ointment and found that it did the trick," he said.

"I treated the gun barrel with the soap and ointment and the gun worked perfectly."

"I tried everything I could get but nothing helped me. I began using Cuissons Soap and Ointment and found that it did the trick," he said.

"I treated the gun barrel with the soap and ointment and the gun worked perfectly."

"I tried everything I could get but nothing helped me. I began using Cuissons Soap and Ointment and found that it did the trick," he said.

"I treated the gun barrel with the soap and ointment and the gun worked perfectly."

"I tried everything I could get but nothing helped me. I began using Cuissons Soap and Ointment and found that it did the trick," he said.

"I treated the gun barrel with the soap and ointment and the gun worked perfectly."

"I tried everything I could get but nothing helped me. I began using Cuissons Soap and Ointment and found that it did the trick," he said.

"I treated the gun barrel with the soap and ointment and the gun worked perfectly."

"I tried everything I could get but nothing helped me. I began using Cuissons Soap and Ointment and found that it did the trick," he said.

"I treated the gun barrel with the soap and ointment and the gun worked perfectly."

"I tried everything I could get but nothing helped me. I began using Cuissons Soap and Ointment and found that it did the trick," he said.

"I treated the gun barrel with the soap and ointment and the gun worked perfectly."

"I tried everything I could get but nothing helped me. I began using Cuissons Soap and Ointment and found that it did the trick," he said.

"I treated the gun barrel with the soap and ointment and the gun worked perfectly."

"I tried everything I could get but nothing helped me. I began using Cuissons Soap and Ointment and found that it did the trick," he said.

"I treated the gun barrel with the soap and ointment and the gun worked perfectly."

"I tried everything I could get but nothing helped me. I began using Cuissons Soap and Ointment and found that it did the trick," he said.

"I treated the gun barrel with the soap and ointment and the gun worked perfectly."

"I tried everything I could get but nothing helped me. I began using Cuissons Soap and Ointment and found that it did the trick," he said.

### COULD OPERATE FOUR DAYS A WEEK ON BLAIRMORE SCALE

Robert Livingstone, manager of the C.P.R. mines at Lethbridge, states that he is warranted in saying that with the Blairmore scale his mines could operate four days a week until the middle of July, when fairly steady work would be assured, up to full time later in the season. "With present production costs," he stated, "we are steadily losing in the markets where we were strongly established. The Blairmore scale would enable us to reduce production costs sufficiently to successfully compete with the United States coal in Manitoba and Winnipeg particularly. The assurance of an increased demand from this market would warrant operating the mines at least four days a week from now until the middle of July; from then on we should be able to operate better than four days a week, up to full time later on."

### EXPLOSIVES FROM RUSSIA DISCOVERED IN BULGARIA

SOFIA, Bulgaria, May 8.—The police now believe they hold the threads of the agrarian and communist plots. Persons under arrest, the police say, have confessed that workers for Russia rods received more than 15,000 levas monthly apiece. (A leva normally is valued at 19 cents). Numerous arrests have been made, including the leaders of local secret organizations.

A large supply of explosives from Russia has been found at Burgas on the Black Sea. In Varna many private homes have been raided and weapons, explosives and numerous incriminating documents discovered.

The police are continuing their investigations with unabated zeal into the activities of communists. Three priests of the cathedral in Sofia have been arrested as accomplices of Sexton Zadovski, who is charged with having permitted the communists to place the explosives in the cathedral. At Philippopolis, Vratsa, and elsewhere, many nests of conspirators have been raided.

### FIFTY MILLION FOR "GOOD WILL"

When a New York corporation purchased Dodge Bros. motor car business they paid fifty million dollars out of a total price of one hundred and forty-six million dollars, for "good will."

Dodge Bros. spent fifteen million dollars in advertising in the ten years of the firm's existence, and made their car a household name.

That expenditure of fifteen million dollars was largely responsible for the "good will" which brought fifty million dollars.

Advertising pays.

Of course, advertising in a small way will not give the same results as will advertising in a larger way.

The law of gravity applies just the same with a falling apple as it does with a falling world.

So it is with Advertising—Ex.

### SIXTY-TWO BILLION TONS OF COAL IN ALBERTA

Sixty-two billion tons of coal, half of this amount recoverable, lie beneath the surface of Alberta soil, according to Prof. J. A. Allan, provincial geologist and head of the department of geology of the University of Alberta, in a statement made before the Alberta Coal Commission. The commission was also told that \$12,000,000 had been lost by the abandonment of coal mines during the past twenty years.

Archibald C. Campbell, K.C., is the solicitor for the plaintiff.

### J. E. UPTON -- Your Home Tailor

### OUR COAL REJECTED

Two or three years ago the Crows' Nest Pass Coal Company made a strong effort to put our coal on the Winnipeg market, but they met with very stiff opposition from a lot of the dealers who evidently for reasons of their own did everything they could to keep it out of the field. Recent investigations on the part of the Dominion government have revealed a little of graft on the part of some of the said dealers which thoroughly explains the difficulty which our company was up against at that time. A writ was issued the other day at Winnipeg in the Court of King's Bench on behalf of His Majesty the King against the Canadian Coal Sales Company, claiming payment of \$160,028, alleged to have been overpaid by the government on contracts with the defendant company for the supply of coal of specific name to the Tuxedo military barracks since 1920. Hon. Ernest Lapointe, Minister of Justice, is named as prosecutor of the action on behalf of His Majesty.

The statement of claims set forth that by document in writing dated June 10, 1920, the defendant offered to deliver to the barracks in Winnipeg 6500 tons of Blairmore mine run coal at \$13.50 a ton, which offer was accepted. The defendant, however, delivered only 2176 tons of the coal named, it is alleged, and presented invoices for 6500 tons for which payment was made by which it is alleged the defendant received \$44,200.30 beyond the amount for which he had delivered coal of the kind specified in the contract.

A further claim is made that by a contract made in 1921, calling for the delivery of 7690 tons of Youghalagh steam coal, the defendant charged and was paid for 7649 tons, although it is alleged only 5128 tons of the coal were actually delivered and the government as a consequence overpaid the defendant \$23,327.50.

It is further alleged that under three additional contracts for a supply of coal made in 1922 and 1923 the defendant charged and was paid for 9996 tons of coal although only 2333 tons were delivered and the government overpaid the contractor \$65,866.

It is also alleged that from April 1 to December 1921 the contractor charged the government for 2499 tons of coal, although 611 tons of coal mentioned in the contract were delivered and the contractor was overpaid on this deal \$19,787. A further charge sets forth that between January 1, 1924, and May 31, the contractor charged the government with 2903 tons of coal but delivered only 1961 tons and was overpaid \$9,696.42 in this connection.

Archibald C. Campbell, K.C., is the solicitor for the plaintiff.

From the above it will be quite easy to understand what chance an honest concern trying to sell coal on

Its merits would have with dealers of the type of the above mentioned Winnipeg concern—Fernie Free Press.

Miss Evelyn Olivier, eldest daughter of Dr. and Mrs. Olivier, was a competitor in piano at the Alberta musical festival at Lethbridge this week.

Vivian Leverhulme, multi-millionaire soap king, died in London, England, on Thursday morning last at the age of 73.

Mr. K. G. Craig spent a couple of days this week in Macleod, where he represented several clients at the court sittings.

Miss Atkinson, of the Macleod public school teaching staff, was a weekend visitor with Mrs. F. Ully at Bellevue.

Mrs. Warke, wife of Comd. Whrke, of the local A.F.P. detachment, returned last weekend, after an absence of a few weeks.

Twenty-one persons were drowned when a government steamer capsized and sank in the Mississippi river on Saturday morning.

Mr. Wilfred Dutil returned the early part of the week from Edmonton, where he had been attending Alberta University. Mr. Dutil has accepted a position with the West Canadian Collieries.

## BELLEVUE HORTICULTURAL CLUB

## 1925 Rules and Prize List

## Horticultural Club

- That this Club be called The Bellevue and District Horticultural and Industrial Club.
- That the yearly subscription be \$2.00 per member and such levies that may be necessary to successfully carry on the society.
- That the General Meetings of the Club be held on the first Tuesday of each month, and that notices be posted as to time and place of meeting.
- That the Board of Directors shall consist of seven members and the President and Secretary-Treasurer of the Club.
- That a quorum shall consist of five members and two officials.
- That the appended rules shall govern all Exhibitions and Competitions.

## RULES—EXHIBITION

- The entrance fee shall be 10¢ per exhibit in each class except Classes No. 1, 2 and 76 which shall be 50¢ per exhibit.
- All entries to be made in writing to the Secretary of the Club on or before the closing date.

- No prizes shall be awarded unless there is one more than prizes.
- All exhibits must be in place by 9 a.m. on the day of exhibition, and no exhibit will be allowed to be removed from the hall before 1 p.m.

- Exhibits must be the property of the exhibitor. Produce must be grown by the exhibitor. Home-grown fruits and vegetables for preserves, canned goods, etc., must be made in the establishment of the person exhibiting.
- Imported fruits and vegetables for preserves, can goods, etc., must be made in the establishment of the person exhibiting and classed by themselves.
- All vegetables must be clean, sound and proper; produce must be clean and fit for eating.

- Exhibitors shall have the right to refuse acceptance of any entry, but will state reasons for doing so.
- Any varieties of vegetables must be correctly, neatly and legibly named. Failure to do this renders exhibits liable to disqualification.

- On the entry of each exhibit, a card will be furnished the exhibitor, specifying class, definition and number of entry; which card must remain attached to the exhibit until the award is given.

- The Club officers in charge will direct the placing of all exhibits and exhibitors must strictly obey the instructions given by such officers. The Club is responsible for liability of entries in each class and for together.

- Exhibitors shall in any way be allowed to carry marks which may identify their ownership.

- No person shall act as Judge in any class in which he exhibits or in any class in which he is interested financially, or in which he has any personal or financial writing, properly signed, to the Secretary before leaving the grounds. Each judge shall ascertain from the Secretary whether there are any protests against any of his awards, in order that he may duly present the award to the exhibitor.

- All protests must be lodged with the Secretary in writing within four hours after awards have been announced. The decision of the directors in all matters decided under these rules shall be final. A deposit equivalent to the sum of the fees of exhibitors per protest is required. All deposits to be refunded if the protest is sustained.

- In addition to the premiums offered in the prize list, the judges may recommend additional premiums that may consider worth while and the Board of Directors will then determine whether such premiums shall be awarded and the amount of same. Judges may also distinguish such exhibits as they consider deserving of notice, but have no reward other than the title bearing the word "Highly Commended" or "Commended."

- In the absence of competition in any section, or if the article exhibited be of inferior quality, the Judge shall have power to award only such premium as the committee may decide. Judges are not to confer such distinction as to whether they shall award 1st, 2nd or 3rd, or any premium.

- Gratuits are hereby invited to exhibit such produce and specimens mentioned in the prize list, but which are likely to be of interest as novelties or for another cause. The Club does not undertake to vote award for such exhibits, but in some cases where the exhibits are recommended for awards by the Judges the Directors may grant exemption from the above rule.

- Any person who will attempt to interfere with or influence the Judges whilst in discharge of their duties, or who shall at any time on the premises of the Club, use any language or make any statement to any judge, it consequences of any award made by him, shall forfeit his right to any and all premiums to which he might otherwise be entitled, and may be excluded from exhibiting for one year thereafter. Judgments are particularly requested to immediately report any breach of this rule.

- Upon the discovery of any fraud, deception or dishonest practice, either in the preparation, ownership, or of any representation concerning any article or exhibit which may have been awarded, effect the decision of the Board of Directors having power to withhold payment of any and all prizes awarded, and prohibit any such party or parties from exhibiting for one or more years, and may also publish the name or names of such party or parties, or not, as may be deemed most expedient.

- The Board of Directors will use every precaution in their power for the safe preservation of articles on exhibition, but will not be responsible for loss or damage. Exhibitors must give attention to their own articles during the fair and at the close of the exhibition attend to their removal.

- Should there not be sufficient funds on hand to pay prizes in full, all prizes will be paid pro rata.

- Any exhibitor failing to pay his bill after having been placed there by the Judges shall be liable to prosecution.

- All prize money for exhibits will be paid by the Secretary only, within two weeks after the exhibition.

- Exhibition closes at 6:00 p.m.

## LIST OF CLASSES

## VARIETY

- Best Garden Display of Vegetables, area 40 square feet. Prize, Silver Cup, donated by Henry Birks & Sons, Ltd., Calgary.
- Best Collection of Vegetables, two of each variety not less than 8 and not more than 16 varieties. (No vegetable fruits to be shown in this class). First prize donated by Mr. Cole, \$10.00.
- Potatoes, 6 Round, White.
- Potatoes, 6 Kidney, White.
- Potatoes, 6 Kidney, Colored.
- Best Collection of Potatoes (6 of each variety and not more than 4 varieties). First Prize donated by Mr. Cole, \$10.00.
- Cauliflower, 2 heads. First prize donated by Lethbridge Breweries, Limited, value \$5.00.
- Broccoli, 2 heads.
- Broccoli, 2 heads.
- Flat Cabbage, 2 heads.
- Round Cabbage, 2 heads, 1st prize donated by Johnson & Coopers.

- Carrots, any other variety. 1st prize donated by Mr. Bell.
- Leeks, 6. 1st prize donated by Mr. Bell.
- Onions, from Sets, any color, 6.
- Onions, White from Seed, 6. Grown in year 1925.
- Onions, Yellow from Seed, 6. Grown in year 1925.
- Onions, from Set, any color, 6. Grown in year 1925.
- Shallots, 12.
- Multipilers 12.
- Pickling Onions, 1 lb., must not be peeled. Grown Beets, Long, 3. 1st prize donated by Mr. Bell.
- Beets, any other variety. 1st prize donated by Mr. Bell.
- Turnips, 6.
- Radish, Long, 6.
- Winter Radish, 6.
- Celeri, 2 heads. 32. Celeri, Cabasse, 2 heads Lettuce, Curled, 2. 41. Lettuce, Cabasse, 2 heads Collection of Peas, 12. 1st prize donated by Mr. Bell.
- Long Pod Bread Beans, 12.
- Pods Wax Beans, 12.
- Pods Dwarf Green Beans, 12.
- Pods Butter Beans, 12.
- Broad Winter Bean, Short Pod, 12.
- Cucumbers, 24. 49. Cucumbers, Ridge, 2 Rhubarb, leaves trimmed, 6 stalks.
- Swiss Chard, 2 heads.
- Tomatoes, Green, 6, outside grown.
- Vegetable Marrow, 2, White.
- Vegetable Marrow, 2, Green.
- Pumpkin, 1.
- Sweet Corn, 6 cobs.
- Squash, any other variety, 2.
- Clitron, 2.
- Roots of Alfalfa.
- Best Artistic Display of Garden Flowers, area 40 feet. 1st prize, Silver Cup, donated by Mr. Bell.
- Assorted Bouquet of Garden Flowers, any size 77.
- Best Arranged Bouquet of Garden Flowers. (Not less than 12 inches in diameter).
- Aster, any color, 6.
- Asters, not less than 4 distinct colors, 12.
- Best Collection of Fanies, and variety, 12 blooms 1st prize donated by Mr. Bell.
- Pepper, any one color, club prize of \$2.00.
- French Marigolds, 6.
- Carnations, 6.
- Show Dahlias, 4.
- Cactus, 6.
- Collection of Stocks, 10. 1st prize of each variety, 12.
- Best Six Bunches of Sweet Peas, 6 in each, distinct colors. 1st prize, donated by Bellevue Bakery, val. \$10.00.
- Assorted Bouquet of Sweet Peas, own foliage, only, not less than 12 blooms must be Red. 1st prize donated by Mr. Bell.
- Best Arranged Bouquet of Sweet Peas, any decora tive foliage, not less than 12 blooms, must be tied with fine wire. 1st prize donated by Frache Bros, florists, Lethbridge.
- Zinnias, distinct colors, 4.
- Collection of Phlox, Drummond, annual, 6 bloom.
- Petunias, double, 4, outside grown.
- Collection of Snapdragon, 6 distinct spikes.
- Collection of Roses, 3 blooms.
- Collected Marigold, 12 blooms. 2nd prize donated by Crossland Bros., Vancouver, B.C.
- Gladoli, 6.
- Balsam, outside grown.
- Collection of Annuals, 6 or more varieties.
- Collection of Perennials, 6 varieties.
- Collection of House Plants, any one variety.
- Best Collection of House Plants, no more than 1 and one of each variety.
- Best Bouquet Wild Flowers. School children outside plants must be in the exhibitor's possession for least half an hour. 1st prize, \$10.00.
- most points gained for indoor-grown produce, Unio Bank Cup, and Medallion Gold.

## INDUSTRIAL SECTION

- Hand Metal Work, 114. Hand Wood Work.
- Metal Work and Wood Work Combined.
- Amateur Photography, Local, 3 views.
- Art for Schools, 3 views.
- LADIES' SECTION
- All work must be competitor's own work.
- Wood must have been done since last exhibition. No work winning prizes to be shown a second time.
- Best Piece Hand Sewing, any one piece, not less than three stiches.
- Hand-Made Rug.
- One Pair Men's Hand-Knit Socks, to be made plain.
- One Piece of White Embroidery Work.
- Embroidery Work on Silk.
- Collection of Fancy Work, not more than 6 nor less than 1st prize donated by Johnson & Coopers.
- Two Piece Colored Embroidery Work on Linen Pair of Towels.
- Crocheted Yoke, must be made up.
- Any Piece of Crocheted Work.
- One Piece of Tatting Work, 1st prize donated by Johnson & Coopers.
- Half-Embroidered Cushion.
- Pair of Pillow Cases.
- Best Piece Fudge Splitting.
- Best Dried Eggs, White.
- One Dozen Eggs, Brown.
- Best Dressed Fowl.
- Offered by Robin Hood Mills, Limited, for the Best Loaf of Bread baked by non-professional; from Rob in Hood Flour. 1st prize, one 98-lb Rob in Hood Dealer's sale slip, showing purchase of least one 49-lb Rob in Hood Flour, within three weeks of date of contest, to be attached to exhibit.
- Best Home-Made Loaf of White Bread. Club prize Best Apple Pie, 138. Scotch Scones, 2.
- Food Cake, unsweetened Dark.
- Collection of Cookies, Gumdrops and Drop Cakes, not more than 6 varieties of each kind.
- Collection of Fancy Decorated Cakes and Cookies, not more than 6 varieties and 2 of a kind.

- Three-Quart Jar of Fruit, assorted kinds.
- Three-Quart Jar of Pickles, any kind.
- Best Pound of Butter.
- Best Layer Cake, 147. One Patchwork Quilt.
- Any piece of Work done by Patent Needle.

## CALGARY, May 11.—That more than 90 per cent of the steam coal in Alberta was produced by eleven companies who had been in operation since 1896, and that some 40 per cent of the domestic coal production came from seventeen companies whose operations have been continuous since their inception, was the evidence given by John Shanks, general manager of the Brazeau Collieries, at Nordegg, at the opening of the Calgary sitting of the Alberta coal commission here on Monday in the court house.

The commission consists of H. M. Evans (chairman), R. G. Drinan, of Edmonton, and F. W. Wheatley, of Blairmore.

Mr. Shanks, who until the other day, when his men broke away from the United Mine Workers of America in District 18, and negotiated a separate agreement with the company, was the president of the Western Canada Coal Operators' Association, roundly castigated a map that had been produced by the coal mines branch, and which he said was very misleading. It showed that from 1908 to 1924, 244 mines have been temporarily closed and 617 mines abandoned, and that 840 mines had been opened. Most of these mines, he said, had been operated by farmers inexperienced; that there was no mining inspection, and that they should be prohibited. Witness also warmly took exception to a recent statement of Dean Boyle, that the coal industry in Alberta "was an enormous transgression." He claimed that the coal industry as represented by the eleven companies in the steam coal fields, and the seventeen companies in the domestic fields, which produced the bulk of the coal, was managed as capably as any other industry in Alberta. Mr. Shanks further took exception to various remarks of Prof. J. W. Allen, provincial geologist at the University of Alberta. No company worth the name would think of commencing operations without employing a geologist, he said, but they were certain mining engineers that no company would pay ten cents for their advice, he added.

The agreement that had just been negotiated at the Brazeau Collieries was on similar terms to the new Blairmore contract.

He said that no company should be allowed to operate that had not a minimum of \$10,000 cash when starting mining. Many companies, he said, were opened on a "shoe string" and kept their men waiting for their wages.

Witness said that the mining of coal was more costly in Alberta than in the United States owing to physical conditions. In the United States, generally speaking, the conditions were much better, with the result that labor costs were less. Again, much machinery could be used in the United States mines which could not be used in Alberta owing to the want of being of sufficient thickness. Mr. Shanks quoted extensively from articles in the "Coal Age" to prove his point. Operators in Alberta, he said, were willing to install machinery so as it could be used to advantage. Machinery when successfully operated, would reduce the cost of production. In connection with the seasonal occupation of mines in the lignite fields, witness urged that the miners should combine their mining with farming.

There was much land near many of the domestic mining districts that was available. He advocated that the miner should seek to own his farm and not merely work as a farm hand.

The miners of Brazeau collieries have returned to work, having signed practically the same terms as apply in the Crows' Nest district.

- Best Knitted Sweater, made of wool or silk, plain.
- Best Crocheted Sweater.
- Hard Hanger.
- Best Piece of Glass or Container of Jellies.
- One Collection of Home-Made Candy, not more than 6 kinds and not less than 3 kinds.

For the most points gained in the Culinary Section (exclusive of Classes 132 and 133) will be given a first prize. For the most points gained in the Ladies' Section, a Pendant, lady's choice.

FOR GIRLS 14 TO 18 YEARS OF AGE

## The Mothers

of this community are the buyers of most of the goods required for the home, themselves and the children—and, in large measure, for the men as well.

These women are the closest readers of the local newspaper. A message in "The Enterprise" is certain to be read by the very people the home merchant must reach with his "store news."

ADVERTISING is the bond of confidence that ties your store to the homes of the community. The homemakers expect to be invited to your store. Are you willing to be shown that?

### Relic of Quebec's Fall to Return to Canada

#### This SHIELD

was taken from one of the Gates of QUEBEC at the time that a Conquest was made of that CITY by His Majesty's Sea and Land Forces (from Memorial Year 1690 under the Command of the Admirals STOUPA and HOY-MAN and the Generals WOLFE, MACKENZIE, HOW AND MURRAY, which latter being appointed the first Bath GOVERNOR thereof made a present of this TROPHY of War to this CORPORATION whereof He then was one of the URATS.

According to press despatches from London, Lord Willingdon, 1st Viscount Acland, who was scheduled to sail from Liverpool on April 6th by Canadian Pacific steamship to Montreal, a special journey from the Hastings Corporation to the Quebec City court, has postponed his visit for some time owing to the illness of Viscountess Willingdon.

His Lordship's official mission, which will be carried out when the Viscountess recovers, will be to return to the City of Quebec the shield which was taken from its gates during the Conquest of Wolfe in 1759 and which was presented to the Hastings Corporation by General Murray who was present on that memorable occasion.

Lord Willingdon has obtained the services of the door of the Council Chamber in the Town Hall at Hastings, and Quebec has endeavoured to obtain its return, for years in vain, but at last Hastings has relented.

Viscount Willingdon will be accompanied by his wife who before her marriage was the Hon. Maria Adelaide, daughter of the late Sir James Bramley, together with his son the Hon. Inigo Brasseys Freeman-Thomas and his wife.

### Here and There

#### FIGHTING BOLSHEVISM

British government will co-operate with other countries of Europe to fight Communistic propaganda throughout that continent, announces Sir William Joynson-Hicks, home secretary.

It is a fight that cannot be neglected.

Communism, as it exists in Russia, is the one thing that can wreck civilization. It is dangerous, not because it imposes a form of government that is unsuitable and economic theories that are unsound, but because it tends to atrophy and pollute the whole social structure.

Bad as Communism is economically, it is more of a social than an economic evil. For Communism is nothing more nor less than the organization of the unfit. It is governed by the underman, the revolt of inferiors who have not the mentality to support the burdens of civilization against those who are fitted by heredity to support and maintain civilization.

According to a statement issued by the Bureau of Statistics, Canada's production of commercial fruits for the past year showed a decrease of \$8,902,912 in value as compared with 1923. The total value of fruits grown in 1923 was \$33,169,343 and in 1924, \$24,266,431.

There has been a decided increase in the first quarter of this year in the ordinary life insurance written in Canada as compared with that of the corresponding period in 1924. The increase in March over February was from twenty-eight to thirty-five million dollars.

According to the first weekly report issued by the Canadian Pacific Railway, the crop acreage this year will be slightly less than last. It is estimated that Manitoba will sow about 2,643,000 acres this year, Saskatchewan 8,555,183 and Alberta 2,721,689 making a total area of 13,919,872 as compared with 14,153,900 in 1923.

Very encouraging reports as to the general agricultural outlook in Southern Alberta have been received from Canadian Pacific Agents around Calgary. Much more progress has been made with seed than described as either "splendid," "fine" or good and in every case plenty of moisture in the ground is reported.

The best way to ruin the crowds of the colored races is to bring the white race to maximum efficiency. The best way to bring the white race to maximum efficiency is to cure that disease that, in the form of Communism, menaces this race.

And the best way to cure that disease is with the weapon of eugenics that will not permit those inferior children, bound to be tainted with the Bolshevik mind, to be born at all.

Don't hit a man when he's down, unless you can keep him down.

### Here and There

The Good Roads Department of Manitoba expects to complete the Trans-Canada Highway through that province by October the first. This will complete the road from Brandon west to the Saskatchewan boundary.

The city of Halifax, N.B., is planning to re-establish its Provincial Exhibition this coming fall according to Mayor Murphy. This fair has only been held once or twice since the war prior to which it was an annual event.

The Canadian Trade Commissioner at Liverpool, England, is taking steps to interest Canadian business men in the export of crushed oyster shells to Great Britain. The United States exports 20,000 tons of crushed shells annually to the British Isles.

The official opening of Crystal Garden, Victoria's latest and finest Amusement Park will take place on June 26th. Celebrations, including a ball, processions, and sports, will mark the occasion and are scheduled to continue until July 1st.

Navigation on the Great Lakes and the St. Lawrence is now open and has provided employment for hundreds of men from Montreal, Toronto and other cities who have been idle during the winter. Shipping circles are optimistic concerning the season just commenced.

It is announced that the Banff, Alberta, Pow-Wow and Indians Day celebration which takes place annually, will be held this year, July 23 and 24 in the Yoho Valley. On these days the Stoney tribe of Indians in full regalia, will travel and compete in contests of every kind.

There are approximately 2,000,000 persons attending schools in this country. Of this number, 1,600 are at institutions for the blind and maimed, 81,000 at vocational schools or classes; 14,000 at Indian schools and the remainder attend colleges, universities, subsidized and private schools and institutions for training teachers.

With a view to arranging a new trade and transportation agreement between Canada and the British West Indies a conference is to be held at Ottawa in June which will be attended by representatives of the Governments of Canada, Bermuda, Leeward and Windward Islands, Barbados, Trinidad, British Guiana, Jamaica and British Honduras.

The gold mines of northern Ontario are said to have yielded a higher income during the first quarter of 1923 than in any similar period in their history. Estimates place the income of mining companies in the Porcupine district at nearly six million dollars and in the Kirkland Lake District at one and a quarter million.

John Hartney, Canadian Pacific Railway engineer, who has recently completed his 42nd year in the company's service, was the guest of honor at a banquet given by the Brotherhood of Locomotive Engineers on St. George's Day at Smiths Falls, Ont. Mr. Hartney, is President Beatty's special engineer and was presented with a gold cane.

In an effort to individualize the name of Saint John, N.B., the City Corporation, Board of Trade, and other organizations are in future to spell its name out in full. This port has grown rapidly in importance in recent years and in addition to being the winter headquarters of the fleet of the Canadian Pacific Railway, is also a port of call for numerous lines operating between Canada and Europe, as well as the centre of a large fishing industry.

The country is being besieged by moving-picture stars. Mary Pickford, Viola Dana, Tom Mix, Harold Lloyd and others have travelled through within the last few weeks, and explored the Rocky Mountains and other Canadian attractions. The latest is Harry Gibson, who is bringing a large company of movie people here to film the Calgary Stampede as an incident in a "super" drama.

Lord Aberdeen and Temair, former Governor-General of the Dominion and Lady Aberdeen passed through Canada recently with the British delegates to the seventh Quinquennial Conference of Women, of which the Marchioness is president and founder, at Washington. On the bridge at Niagara Falls Her Ladyship was presented with a golden key symbolic of free entry into the United States.

## Type Your Laundry Tickets on This

The ladies and gentlemen, is a picture of the only Japanese typewriter in captivity. It is known as the "Hobun" typewriter. It inhabits the offices of Shanghai, Tokyo and other parts of China. It is harmless but somewhat difficult to control. It is more complicated than the "Theory of Relativity," runs as smoothly as a roller coaster over the Rockies and makes more noise than a dust by a boiler factory and a Selection Army band.

It is a machine of typewriting the Japanese language. It was invented by an Irish mechanic named K. K. Sugihara who was born in the market town of 1916. A piece of machinery it is infinitely superior to the "typewriter American." The latter very seldom has more than 40

keys, the Hobun has three thousand; the Americans prints a total of 94 characters, and the Hobun nearly four thousand. Then again, anyone can operate the American variety of typewriter, whereas the typewriter of Hobun, with its thousands of keys and hundreds of levers,

It has (as we suspected) a key-board. In fact, it

has no key-board at all. The type is arranged face upward and serves the dual purpose of key-board and type-specimen. The platen is a lever which, when depressed over the desired character, rapidly prints it character up, rubs it gently on the ink roller and finally conveys it up to the platen on which the paper is rolled and thus triumphantly prints the character.

The specimen shown above was captured by Canadian Pacific officials in China, and now occupies much of the floor space of the office in Shanghai. The expert Chinese stenographer seated in front of it, has been rapidly printing characters as much as one whole page of neatly typed Chinese ideographs a day on his Hobun. This record has not yet been beaten.

## ADDITIONAL LOCALS

The C.N.R., according to the statement of Sir Henry Thornton, will sell 400 beer on trains.

Governor-General Lord Byng is to leave Edmonton on July 13th for a trip down the Mackenzie river to Akavik in the Arctic. It is possible that he will be accompanied by Premier Grenfell.

Chautauqua will be held at Cranbrook May 28th to June 3rd. Dr. G. G. Kerby, of Calgary, will be the speaker on the evening of the closing day on the subject: "Canada's Contribution to World Life."

Dr. Harry Brett, son of Lieutenant-Governor Brett, died in Edmonton of heart failure on Thursday night last. The remains were laid to rest at Banff on Monday afternoon. Dr. Brett was 46 years of age.

An Ontario exchange remarks: "The Canadian National Railways and the Canadian Pacific Railways are endeavoring to work out a scheme whereby wasteful duplication of service of the two companies may be eliminated. In many parts of Canada the two lines parallel each other, in some cases the tracks being in sight of each other. It is to be hoped their efforts may be successful, though it will take more than a year to arrive at a new basis of operation."

Calgary will permit a tag-day for the benefit of Nova Scotia miners.

An exchange says: "When you buy a Ford you know what you're getting." Yes, unless you are blind, deaf or dead.

Carlson will hold a two-day celebration, July 1st and 2nd. The programme includes the unveiling of the soldiers' memorial, horse races, baseball, foot races and other attractions.

**POSITION VACANT** — Applications will be received for the position of Steward at the Blairmore G.W.V. A. Duties to commence June 1st. Apply not later than May 20th to Secretary, Box 103.

Four representatives of the miners of Nordegg have been in this district during the week, gathering information as to cost of living, etc., as might affect their new agreement, which is practically based upon those of Blairmore and Bellevue.

Appointments in the hotels department of the Canadian Pacific Railway are announced by the company's head office at Windsor Station, Montreal. Mr. M. J. Brennan, until recently manager at Glacier and St. Amour, is manager of the Palissier hotel at Calgary; O. L. Dahl, formerly manager of the Glacier hotel; J. B. Delahanty continues as manager at Lake Louise, and A. W. Edwards is transferred from Calgary to Lake Louise as assistant manager.

Charles Patton, of Lundbreck, was a visitor to Blairmore yesterday.

Another Japanese steamship, the Toyo Maru, of 470 tons, has been wrecked, with a loss of one hundred lives.

The Dominion government will contribute seventy-five cents a ton towards paying the freight rates on 25,000 tons of Alberta coal being shipped to Ontario.

The statement has been made by John T. Stirling, chief inspector of mines in Alberta, that at least \$15,000,000 has been lost through abandoned coal mines in the province in twenty years.

Seven carloads of settlers' effects have arrived at Cowley this spring from the dry belt. Mr. Estelle, from Cross, Saskatchewan, has taken over the Barnett ranch on the North Fork, while Messrs. Hetherington have taken up land south of Cowley.

The following composition on a goose was written by a school boy in Brandon. "A goose is a heavy-set bird with a head on one side and a tail on the other. Its feet are set so far back on his running gear that they nearly miss his body. Some geese are ganders and have a curl in their tail. Ganders don't lay or set; they just eat and go swimming. If I had to be a goose I would sooner be a gander. Geese do not give milk but eggs."

## CANADA'S 1925

## FLYING PROGRAM

The program of flying operations to be carried out during the coming season by the various branches of the government service by the Royal Canadian Air Force was drawn up at the recent annual inter-departmental conference on flying operations held at Ottawa. The conference was under the chairmanship of the Deputy Minister of National Defence and representatives from twenty branches of the Dominion government service were present. It was announced that thirty-three aircraft would be available for civil government operations, distributed at the various stations as follows: Dartmouth, N.S., air station, 2; Ottawa air station, 4; Manitoba area, 16; High River, Alberta, air station, 7; Vancouver air station, 4. One or more aircraft at each will be fitted for aerial photography.

The growing importance which aviation is assuming in carrying on the work of various branches of the Dominion government service is shown by the increasing demand on the pilots and equipment of the Royal Canadian Air Force. As in the past the work of the department of the interior is the largest item on the program. The plans for 1925 show extensive work for the forestry, topographical surveys, national parks, water power and reclamation, international boundary commission, and ordinance land branch of the department.

Details of the coming season's program are given below:

**Department of Agriculture**—Investigation of the upper atmosphere in connection with the spread of the wheat rust diseases; continuation of work on white pine blister rust control.

**Department of Customs**—Continuation of patrols for preventive service.

**Department of Indian Affairs**—Transportation for parties paying Treaty money in northern Manitoba.

**Department of Marine and Fisheries**—Fisherries patrols in northern British Columbia.

**Department of Mines**—Aerial photography for mapping an area north of Georgian Bay.

**Department of Public Works**—Photographic survey of Portland Canal, B.C.

**Department of Railways and Canals**—Photograph of Hudson Bay Railway line and Churchill River district.

**Department of the Interior**—Canadian National Parks—Photography of historical sites in Maritime Provinces, Ontario and Quebec; fire patrol for Waterton Lakes, Rocky Mountains and Kootenay parks; photographic reconnaissance in unsurveyed portions of the Jasper Park area.

**International Boundary Commission**—Photography of International Boundary in southern Manitoba and southern Alberta.

**CEMENT PLANT**  
WILL BE STARTED

A cement factory, said to be the first of its kind in America, is in course of establishment on Granville Island, False Creek, and will be a total new addition to Vancouver industry when it begins operations about July 15.

W. J. Budd is organizer and has been named managing director of the Coast Cement Company. Capital has been secured largely from local sources, although it is reported that the organizers found it necessary to go outside Vancouver owing to the apparent indifference of many city capitalists and investors who did not seem to be concerned in the establishment of a new industry in the city.

Buildings and realty formerly owned by Watson Bros. Fishing & Packing Co. Ltd., at the west end of Granville Island, have been secured by the new company. The buildings are well, large and substantially constructed and the site has excellent shipping facilities by both rail and water.

Vancouver Sun

The Saskatchewan provincial election will be held on June 2nd.

## General Change

## in Train Service

Effective, Sunday  
May 17th, 1925

Times for Trains at Blairmore will be  
WESTBOUND 6:35 a.m. No. 65 10:45 p.m.  
EASTBOUND Daily

No. 535, 2:55 p.m. No. 536, 10:01 p.m.  
Tues., Thurs., Sat.

TRANS-CANADA LIMITED, Nos. 7 and 8 (standard sleeping cars only)  
between Montreal, Toronto and Vancouver, first train leaves each of these points on May 17th, 1925.

THE MOUNTAINER, Trains Nos. 14 and 15, between Chicago and Vancouver, will be suspended through train passing Calgary Westbound June 3rd, and Eastbound June 6th.

For Further Particulars apply to any  
Ticket Agent  
J. E. PROCTOR  
District Passenger Agent  
CALGARY

Mr. Pollock, of the Canadian Oils Limited, has been in town during the week, finalizing arrangements for the erection of his company's distributing plant here.

Rev. Fathers McCormick, Donovan and Cosman motored to Calgary on Monday to be in attendance at the reception to Bishop Kidd. They will return before the end of the week.

Mr. and Mrs. John Richards and their youngest child were drowned near Lake Saskatchewan, when a small bridge over a swollen creek collapsed, dropping their buggy and team into the torrent.

The three-million-dollar residence of Vincent Astor in New York was sold recently to Benjamin Winter, to be demolished to give place to a \$10,000,000 apartment house. Winter thirty-five years ago was a penniless boy.

Lawyer—"I wish now to tax your money."

Witness—"Good heavens. Has it come to that?"

# RED ROSE COFFEE

"is good coffee"

## The Richer Life Of The West

The people of the prairie provinces of Canada are engaged in the very large task of converting an empire of vacant or sparsely settled territory into a thriving nation, and in doing so are seeking to lay foundations firm and true upon which the great structure of the future shall be erected. While much has been accomplished, the days of the plowmen are by no means past, and tasks enormous in their magnitude yet call for the initiative and energies of Western people.

It is both natural and inevitable that during these years of pioneer settlement and development the thought and activities of the people should be directed to those material and physical things necessary to the opening of the country and providing for its financial success and prosperity. Problems of transportation by rail and ocean, the construction of roads and bridges, development of oil fields and access to them, wheat products, questions of credit and agricultural banking, marketing, health and rates of interest, if it's credit, money problems therefore loans large at present throughout the West, and the very fact that they call for so much consideration, agitation and legislation, has a tendency to create in the minds of people elsewhere a false idea that the people of the West are wholly material, even mercenary in their outlook, giving little thought to or, having little regard for what are generally termed the finer and better things in life.

The surprising thing about Canada's prairie provinces is not that so much attention is necessarily devoted to the material development and well-being of the country, but that such a large amount of time, earnest thought and hard earned money is so freely given by Western people in these early days of their country's history to what termed the finer arts, and to the development of a strong, intelligent and cultivated citizenship. It is one thing for old established, well settled and wealthy countries to erect and maintain great universities, museums of art, conservatories of music, symphony orchestras, etc., etc., but quite another thing for sparsely settled pioneer communities to do so.

Nevertheless on these prairie provinces greater attention is being paid to the provision of higher institutions of learning than in many old and wealthy countries, and even in these still pioneer days the work of collecting art treasures, establishing museums, and cultivating a popular taste for the best in literature and music is receiving increasing attention and support.

None of the older Canadian provinces are putting forth anything like the same effort in the encouragement of good music among the masses of the population as is being made year after year in these prairie provinces in the instrumentalities of the usual amateur activities. In the other provinces and in the states to the south, good music is, as a rule, provided through the benefactions of a few wealthy patrons. Here in the West, where people of great wealth are few and far between, these "other" things can only be made possible through the self-denying service of the people themselves, mainly by the small contributions of all.

These annual musical festivals, which are increasing in popularity and attaining a higher standard of excellence year after year, are but the culminating of faithful painstaking work on the part of scores of small musical organizations scattered throughout the cities, towns, villages and rural districts of the Canadian West, and all of which are constantly bringing real pleasure and profit to their respective communities. And what is being accomplished in the development of a popular taste for good music is to an increasing degree also being accomplished in the realms of literature and art.

The people of the West are not mere money grubbers. They are striving hard to attain to material prosperity, it is true, and they are insistent in their demands that those material things essential to the attainment of that object shall be provided. But such material prosperity is regarded by the vast majority of Western people merely as a means to an end, that end being the enrichment of the whole life of the people and the upbuilding of as fine a country and race of people as are to be found in the world. The fact that such research is now being done to achieve that result when the means for its accomplishment are so limited, speaks volumes for the ideals and aspirations of Western Canadians, and holds promise of a rich and wonderful future.

## Belgians Want B.C. Zinc

Faced With Shortage Since Australian Supply Cut Off

J. Nivette, mining engineer for the Vieille-Montagne Zinc Co., of Belgium, is in Vancouver with word that his company is prepared to take an unlimited quantity of zinc concentrates from this province and to finance or operate zinc property in British Columbia.

M. Nivette states that a great source of supply in Australia, from which the concentrates for 30 years was secured, have been lost to Belgium, and that, faced with a growing world demand for the metal, his company is prepared to spend a large amount of money in British Columbia to create her a new supply for its European smelters.

The light in Bishop's Lighthouse, off the southwest coast of England, weighs several tons, but can be revolved by a child because it rests in a circular trough of mercury.

## Coal Resources Of West

62 Billion Tons of Coal Lie Under the Soil of Alberta

Sixty-two billion tons of coal, half the amount of coal in the world, lies beneath the surface of Alberta soil, according to Prof. J. A. Allen, provincial geologist, and head of the department of geology of the University of Alberta. In a statement made before the Alberta coal commission, the commission was also told that \$12,000,000 had been lost by the abandonment of coal mines during the past 20 years. This loss is ascribed to loss of markets.

You can't always judge things by their looks. Shaving father looks just as good to eat as whipped cream.

When a man is sure that his friends never say unkind things to him he is sure that all his friends are dead.

One song sung amid a storm is of more benefit to mankind than a whole concert when the sun is shining.

## "Play Streets"

Where Automobiles Are Banned and Children Can Romp Without Fear of Death

In some cities of the United States the problem of safeguarding the lives of children has been solved by the designation of certain streets as "play streets." During certain hours of the day automobiles are denied access to these designated zones. The plan, it is said, has proved to be popular with the kiddies, their parents and the motorists themselves.—Hamilton Spectator.

## For Aches, Pains,

## The Safe Home Remedy

## NERVILINE

When sudden sickness comes, when the kiddies come in with colds, their little chests and throats sore from coughing, quick results always follow a vigorous dose of Nerviline with cold water. If it's Colds, Coughs, Rheumatism, If it's Cramps, Cold, Neuralgia, Nerviline is a wonderful friend; it brings ease and comfort so quickly. For aches, pains, neuralgia, overcome the body with constant pain in the home, nothing compares with "Nerviline"—35 cents at all dealers.

## Believe In Divining Rod

People in Czechoslovakia Have Had Satisfactory Demonstration

The people of Prostidol, Czechoslovakia, no longer doubt the efficacy of the divining rod as a means of locating water under the surface of the earth. They have had a demonstration, they aver, which is conclusive.

Badly in need of a water supply three years ago the town employed Heřman Ott, a local expert with the divining rod, to "locate" water. He found a well 20 feet down gave nothing but dry soil, and the project was abandoned. The town managed to get along until this winter, when existing supplies became so scant that Heřman again was called in. He walked about with his divining rod, and as he passed over the old well, the story goes, the hazel switch was actually pulled out of his hands. Townspeople went to the bottom of the old shaft, dug down six feet more, and found an abundant supply.

Put up only by The T. Milburn Co., Limited, Toronto, Ont.

## NEW STRENGTH FOR WEAK GIRLS

Can Be Had Through the Rich Red Blood Made By Dr. Williams' Pink Pills

There comes a time in the life of almost every woman when she begins to strain her. The strain upon her blood supply is too great, and there come headaches and backaches, loss of appetite, loss of sleep, loss of interest in all forms of diseases, heat palpitation, a continual weariness, and a tendency to a decline. All these symptoms may not be present in any particular case, but the presence of any one of them calls for prompt treatment. And the very best treatment is through the blood-toning qualities of Dr. Williams' Pink Pills. These pills contain a tincture needed to maintain the health of growing girls and women of mature age.

There is a bit of strong proof.—Miss Matilda Broan, King Highway, Newville, N.B., says:—"I was in an extremely run-down and nervous condition. I had a weak heart, had a poor appetite, slept badly, and was troubled frequently from headaches. In fact my condition can best be described as miserable. I had tried several treatments, but they did not help me at least.

Then, reading one day about Dr. Williams' Pink Pills, I decided to try them. After using three boxes I found that I am now well and strong, with good color and a hearty appetite. In fact, when I take Williams' Pink Pills I do not feel for me I cannot recommend them too highly."

You can get these Pills from any medical dealer or by mail at 50 cents a box from The Dr. Williams' Medical Co., Brockville, Ont.

## For Increased Pensions

Commons Passes a Resolution Amending the Pensions Act

A resolution to provide for amendments to the Pensions Act was introduced in the house by Hon. H. S. Bedford, minister of soldiers' civil re-establishment. Among the amendments contemplated are provisions for a definite pension payable for two years in case of pulmonary tuberculosis; for increased pensions to mothers whose husbands are physically helpless, or in a dependent condition; and for conditions under which pension may be continued to dependent parents.

The resolution was carried without further discussion, and a bill based on it was given first reading.

London school children took out more than 2,500,000 books from their city libraries last year, as compared with 1,744,000 twenty years ago.

Minard's Liniment for Backache

W. M. U. 1876

## To Control Trade In Arms

Ethiopia Registers Objection to Any Restriction Being Placed

Any attempt at the coming international conference on the control of the trade in arms and munitions to define extensive zones where the importation of arms is prohibited or greatly restricted, promises to bring a clash with Ethiopia. This country has sent a strong note to the League of Nations upholding her need of arms to protect herself and maintain order and in any case the Ethiopian Government demands the right to do its views before the League council.

## Alberta Tar Sands

Company Making Preparation To Start Development Operations

Officials of the Anglo Canadian Col. Horres and Refineries Ltd., a company that was formed some time ago with the object of developing the Northern Alberta tar sands on a commercial scale, state that they are making preparations to start operations this spring. The company is backed by local capital and has acquired the Canadian rights for a German process of extracting the bitumen from the sand.

## HEART WAS WEAK NERVES ALL GONE

Mrs. J. H. Hallenbeck, 117½ Welland Avenue, St. Catharines, Ont., writes:—"I was in a gas explosion; it left me with a weak heart, and my nerves were all gone. I suffered everything; couldn't sleep, endure any excitement, and when left alone I felt as if I could scream. I took dizzy spells, often falling and bruising myself. My mother read about your Milburn's Heart and Nerve Pills, and bought me a box, but had taken so much that I had to give the remainder to my doctor. I still seemed that I did not have any confidence in any of them. I took one box of H. & N. Pills, and felt so much better I continued with them until I had had two boxes, and now have none any more. I cannot praise, or recommend, Milburn's Heart and Nerve Pills too highly after all they have done for me."

Put up only by The T. Milburn Co., Limited, Toronto, Ont.

## Ignorance and Communism

School Laws of This Country Must be Obeied by All Classes

The British Columbia Government is not letting up in its campaign with the Doukhobors. This is the land of the free, and no country interferes with the private life of the people, but there are some things that every Canadian Government must do, and one of these is to enforce the school law. This is one reason that the Doukhobor object to obeying that law is because he finds when the child goes to school and learns something, he ceases to become a Communist.—Calgary Albertan.

## Japan's Naval Programme

Has in Hand a Formidable Programme of Naval Construction

Japan is the only power engaged in carrying out her programme of naval construction without variation, and apparently also without delay. She has in hand what, in view of the resistance which is being exercised in other countries, can only be regarded as a formidable programme. She possesses already twenty-eight cruisers, and is building eleven more; she will have in two aircraft carriers, twenty-three destroyers, twenty-eight submarines and three mine-sweepers.—London Daily Telegraph.

## Extend Auto Permits

Support of all the automobile clubs throughout Canada will be solicited by the Automobile Club of British Columbia in an endeavor to obtain from the customs department an extension of the thirty-day automobile tourist permit, according to an announcement by F. J. Elkins, the club manager.

An Oil that is Famous.—Though Canada was not the birthplace of Dr. James G. Orin, the famous oil man of that famous compound. From here its good name was spread to Central South America, the West Indies, Australia, New Zealand, and Japan, and is now far afield enough to attest its excellence, for in all these countries it is on sale and in demand.

Romance of Provincial History.—The children of Manitoba, Canada, can never be expected to take maximum interest in the development of this province; until their imaginations are fired by the romance of the province's history.—Vancouver Sun.

MURINE For Your EYES Refreshes Tired Eyes Write to us—Call for Case Book

W. M. U. 1876

## Juvenile Migration

London Saturday Review Deals With This Important Question

The London Saturday Review dealing with the subject of child immigration in Canada, says the same report of the number of citizens of British subjects' receiving homes show that native initiatives, and they carefully avoid criticism of the methods followed in connection with child immigrants.

"Juvenile migration towards Canada," the Review says, "has too long remained only an adjunct to the work of reclamation of child life in the English and Scottish congested areas. These limitations should be removed and a state-aided and state-controlled system inaugurated that will be available for boys and girls of all classes."

## Valuable Emerald Sold Cheap

Supposed To Be Imitation But Found To Be Genuine

Two shillings for an emerald was paid by a man who visited a cheap jewellery store. The stone which was believed to be an imitation turned out to be a genuine gem and sold for £1.45. A dealer in cheap jewellery in one of the most strenuous of Rutherglen's streets, Mr. John Shand, had a quantity of imitation stones to sell. The goods included a supposed replica of an emerald ring which was purchased for two shillings. Later the purchaser had it valued, and it was found that the jewel was one of six carats, set in gold. Efforts to trace the man who sold the ring have proved unsuccessful, and the earlier history of the jewel, which measures half an inch across, is unknown.

## He Would Not Be Without Them

## Quebec Man Absolutely Relieved Of Backache

Mr. Alfred Gagnon Recommends Dodd's Kidney Pills to All Sufferers

Moulin Bertrand, Quebec, (Special) "I was working when your old dad's Kidney Pills were given me much good," states Mr. Gagnon, a well known and highly respected resident of this place.

I have aches in the back and kidneys. I have done me good immediately. I always keep a box in the house. To day I am working again and am relieved of my trouble and recommend them to all who suffer. Kindly send me one of your almanacs."

Dodd's Kidney Pills are purely and simply kidney tonics. They act directly on the kidneys, strengthening them and putting them in condition to do their full work of straining the impurities from the body. Dodd's Kidney Pills have been in use in Canada for more than thirty years. They demonstrated their worth in the most difficult cases of kidney disease, such as rheumatism, dropsy, diabetes, neuralgia and sciatica.

New Scholarship Given

Donated by the International Federation of Students of the League of Nations, a new scholarship is being offered students at the University of Saskatchewan, according to an announcement by Prof. Frank Underwood, of the history department at the varsity. This means that some student will leave early next fall to attend the sessions of the council of the League of Nations at Geneva.

## Easterner Builds Fine Yacht

What will be the finest and most costly private ocean-going yacht built in Eastern Canada by order of Commander J. K. L. Ross, is now nearing completion at Orillia. Her cost is placed at \$110,000. The "Gannet," as she is to be named, will be electrically lighted and heated, will have a speed of about twelve knots, carry a crew of six and have sleeping accommodation for twelve.

The fair sex is decidedly in the majority in the audience to a census taken by the city authorities on January 1, 1925. The figures are 1,006,200 women and 862,028 men.

And maybe the early bird doesn't enjoy the worse as much as the late bird enjoys the sleep.

E. F. Harrison, inventor of the gas mask, entered the French army as a private.

Minard's Liniment for Corns and Bunions

## Would Provide New Industry

Alberta Seeks to Have Straw Paper

Efforts which have been extended over the past three years to demonstrate the practicability of Alberta straw for the manufacture of paper of the kinds, are having some comparative success, according to Trade Commissioner Howard Sturtevant. Arrangements are now being made to have an export and paper engineer visit the province in the near future and make an examination of the local conditions.

It is estimated that a plant turning out the coarse products to the amount of twenty-four tons a day will cost in the vicinity of \$200,000, and it is hoped to interest capital in this project during the coming summer.

## Free Grant Homesteads

440 Homesteads Taken Up in First Two Months of This Year

During January and February this year 440 free grant homesteads were taken up in Manitoba, Saskatchewan and Alberta, and British Columbia, a few less than the record for the same period last year. The official report shows that 217 were taken up in Saskatchewan and 140 in Alberta. In the same period 87 soldier grants were taken up. These, with the homesteads, represent approximately \$4,320,000 in value.

Requisite on the Farm.—Every farmer and stock raiser will keep a pony, not only as a ready runabout for the farm, but, because it is a horse and cattle medicine of great potency. As a symbiotic animal, it is good for horses and cattle affected by it far surpasses anything that can be administered.

## Ship Live Poultry To Holland

Large shipments of white Wyandottes from the farm of Hon. John Martin, Ontario minister of agriculture, are being forwarded to Holland. One of the lot of 50 birds is destined to the Dutch government. The whole shipment is said to be the largest lot of pure-bred poultry ever shipped from Canada.

Prazis the Asthma Remedy. A grateful user of Dr. J. D. Kellogg's Asthma Remedy finds it the only remedy that will give relief, though for a time, when he had asthma for years. Years of needless suffering may be prevented by using this wonderful remedy at the first warning of trouble. It is use simple, its cost is low, and it can be purchased almost everywhere.

## Trans-Canada Highway

Virtual completion of the trans-Canada highway through Manitoba by October 1 is the aim of the good roads department of the Provincial Government. The work, when finished, will complete the road from Brandon west to the Saskatchewan boundary.

Widows of former U.S. presidents get a pension of \$5,000 a year and a franking privilege.

## MOVE TO OMIT WARSHIPS FROM ARMS CONTROL

Geneva.—Great Britain dropped a bomb on Geneva, when she proposed, before the international conference on the control of arms and munitions, that warships be omitted from the category of armaments which will be subject to international control. Japan and Italy supported the British move.

This action on the part of Britain followed a move of another kind, when T. E. Burton, of Ohio, proposed an entirely new clause in the convention whereby international traffic in poison gas for war purposes would be prohibited.

Mr. Burton's resolution was subsequently referred to a committee of technical experts.

Representative Aubrey Smith, British delegate, referred to the conference committee on military and naval and air matters who had recommended taking warships out of the list of armaments which, under the draft convention, are subject to a system of license when sold by one to another. He argued that the chief aim of the conference was not to prevent illicit trade in armaments, but to control and, especially, make it public.

He laid stress on the fact that the object of the conference was not to reduce armaments but merely to throw everything about their sale into the light of publicity. Now nobody, he declared, could conceal the sale of a warship, and hence it seemed unnecessary to keep warships in the category of war material to be supervised.

Japan supported the British view for the same reason, and Italy followed suit. No nation opposed the British suggestion.

### Arms Conference Is Facing Difficulties

**Practically All Smaller States Condemn Proposed Armament Pact**

Geneva.—France, through her eloquent parliamentarian, Paul Boncour, who presides over the French commission of national defence, has given notice that national security must be the precursor to disarmament. Addressing the international conference on control of the trade in arms and munitions, he pleaded for that reign of mutual confidence and spirit of mutual assistance among the nations, which would permit the world to decrease its burden of armaments.

Practically all the smaller states came forward in condemnation of the draft convention now before the delegates. One by one, beginning with Greece, they flayed the document, which is the fruit of two years' labor by experts, as a blow at the minor countries, because in effect it makes them entirely dependent on the great manufacturing countries for those armaments which are vital for the maintenance of their national security.

Both Poland and Rumania called attention to the gravity of the situation arising from the absence of Russia from the present deliberations.

### Canadians Among Heirs Seeking Fortune

**British Estate Valued at Considerably Over Six Million**

Frederickton, N.B.—G. Byron Crawford of Pluto, and John Hawley of South Devon, representing forty odd Canadian and American heirs in the Crawford estate in the British Isles, valued in 1936 at \$4,500,000 and now reported to be worth much more than that sum, have been granted a hearing before the Probate Court of Boston, Mass., where they will consult Col. P. A. Guthrie, who has been engaged as legal representative of the claimants.

**Income Taxes in West**

Ottawa.—Saskatchewan pays less income tax than those of the other two prairie provinces. In answer to a question in the House of Commons, it was stated that the total amounts collected in federal income tax in the fiscal year just ended were: Manitoba, \$5,477,669; Saskatchewan, \$872,028; Alberta, \$1,183,911.

### GOING FISHING?

Take along a bottle of Minard's Water for insect bites. Also give quick relief for sprains and bruises.

W. N. U. - 1078

### Governor-General Byng To Make Tour of West

Ottawa.—His Excellency the Governor-General will leave Ottawa on June 16 for a tour of Western Canada which will last a month. The itinerary will include stops at Winnipeg, Edmonton, Robson, B.C., New Hazelton, Prince Rupert, Vancouver, Victoria and Calgary. The trip west will be made by the Canadian National Railways, and the return trip over the lines of the Canadian Pacific Railway.

### Death Of Lord Leverhulme

**Famous Soap Manufacturer Passes Away At Age Of 74**

London.—Viscount Leverhulme, famous soap manufacturer and philanthropist, who has been ill with pneumonia for some days, died May 7. He was 74 years of age.

Lord Leverhulme's private inclinations, as well as his business responsibilities, constituted him a great individual. He frequently visited Canada, and in Toronto in 1911 he took stock of the situation. Views on the advantages of a six-day working day as helpful to production. On his return from the United States a year later he declared that if Britain followed the States in going dry she could pay her debt to the States in five years.

In his later years, Lord Leverhulme suffered from extreme deafness. He had been a widower for a good many years. His heir, the Hon. Willard Lever Hever, is acting chairman of the business which his father founded.

### Seek Co-operation Of Federal Government

**Company Would Erect Pulp and Paper Mill in Manitoba**

Ottawa.—Co-operation of the Federal Government to provide sufficient supplies of pulpwood for the enterprise is being sought by the Spanish River Pulp and Paper Company, in conjunction with J. D. McArthur, who has announced their willingness to erect a ton-ton pulp and paper mill in Manitoba. They are willing to pay a price equal to the stumpage of wood to competing mills in Northern and Northwestern Ontario and to leave subsequent prices to be fixed by the crown.

The concessions are sought, the companies claim, only to ensure the getting of a sufficient supply of pulpwood to keep the mill going a number of years. The expenditure on the contemplated mill would be about \$5,000,000 or \$6,000,000.

### Saskatchewan Coal Is Shipped To Germany

**Briquetting Test To Be Made Under New German System**

Regina.—One of the investors most interested in the forthcoming briquetting tests in Germany—Saskatchewan—Hignite coal, Hugh Sutherland, Winnipeg, together with a party of industrial engineers, has left for Germany to witness the tests.

The fifty tons of coal shipped from Bielefeld to Rotterdam for the experiments have reached the Dutch port safely, according to a cable received by Thos. M. Molloy, commissioner of the provincial bureau of labor and industries.

The briquetting test will be conducted under the Thyssen and Stimes systems.

### Daring Parachute Descent

**Flight Officer Carter Gives a Demonstration At High River**

High River, Alta.—Jumping from a Viper airplane at a height of 1,200 feet, Flight Officer Albert Carter made the first demonstration parachute descent at the High River air station. The jump was witnessed by hundreds of people from High River. A fairly strong wind was blowing, but the descent was successful in every way. Carter went up on the wing of the one-seater machine, was piloted by Flight Officer Dickens.

Rhineland Radio Ban

Berlin.—The Socialists have introduced an amendment to the Neelstag calling attention to the regulations which will prohibit the use of radio in the Rhineland occupied territory, and asking the government under what authority "this inauthentic measure" by the army of occupation was passed.

**Nova Scotia Elections**

Halifax, N.S.—The last session of the fourteenth Nova Scotia Legislature since Confederation is prolonged. This assembly completes the term of the present government, and an election will be held before September 30.

### Guarded Against Plotters

AUSTEN CHAMBERLAIN  
British Foreign Secretary, who is being closely guarded by plainclothesmen following discovery of a red plot against his life.

### Friendly Act Toward Germany

**Now Represented On Committee Through Suggestion By France**

Geneva.—France made a friendly gesture to Germany at the opening of the international conference on control of traffic in arms, when M. Paul Souroué moved that the redoubled committee of the conference be enlarged from seven to nine members, so that all sections of the world might be represented, particularly non-members of the League of Nations. Germany, chiefly as a result of this motion, is now represented on the committee.

### C. N. R. MAIN ESTIMATES ARE TO BE REDUCED

Ottawa.—While spiritedly defending the operation of the Canadian National Railways in his annual statement on this phase of the system in the House of Commons, and expressing the view that the showing of the system had, to date, been unconvincing, Hon. George P. Graham, minister of railroads, announced reductions in the estimates for the railways, with a view to lightening the financial burden of the country. Ten millions to be eliminated from the main estimate, and supplementary estimates for the system will not be pressed.

M. Graham felt that when all things were considered, the success achieved by the Canadian National was phenomenal. He declared no private company had to struggle under such difficulties as the Canadian National. At one of the most critical periods of the world, the Canadian National had been handed a disjointed mass of intricacies, the chief entities of which had been plunged into bankruptcy under private ownership. There seemed to be a desire that public ownership should, at a stroke, remedy all the delinquencies of private ownership, during the last half century.

Transportation companies should be judged by the service rendered, and by the cost. Mr. Graham compared the operation of American and Canadian railroads.

"In Canada," he said, "both the great lines of roads are above criticism, and, in my opinion, one of the greatest facilities of both the Canadian National and the Canadian Pacific railways in this country is that the service in quality exceeds the remuneration in quantity. The service to the Canadian people is altogether too good."

### Soldiers' Memorial Arch

**Names of Soldiers From Different Parts of Empire to be Placed on Gates at Ypres**

London.—The names of some 50,000 soldiers from all parts of the empire will be inscribed on the Memorial Arch at Menin Gate, Ypres, which is shortly to be erected by the imperial war graves commission in commemoration of the missing soldiers of the Ypres salient. There will probably be 6,000 Canadian names and the high commissioner for Canada learns that approval has now been given to the positions allocated for the inscription of these names.

**Committed For Sirdar Assassination**

Calcutta.—The three men accused of the assassination of Sir Lee Stack, Sirdar of the Egyptian Army and Governor-General of the Sudan, last November, were committed to trial. When arraigned before the magistrate, Abdulla Fatih Anaya, one of the accused, described how the murder was carried out.

### Propose Amendments To Canada Grain Act

Ottawa.—Amendments to the Canada Grain Act will be brought down in the House of Commons shortly. Hon. T. A. Low, minister of trade and commerce, has given notice of a resolution, preliminary to legislation, "to make further provisions in respect to the handling and marketing of grain or incident to the buying, selling or transportation of grain; the grading and weighing of grain; the handling of grain in and out of country elevators; the operation, management and control of terminal public and private elevators; the storing, cleaning and handling of grain, the mixing of grain, and the disposition of screening."

### Fish Embargo No Relief

**Will Not Help Canadian Industry Says T. H. Johnson**

Vancouver.—The suggested embargo on American fish would not bring relief to the halibut fish industry in Canada, according to T. H. Johnson, general manager of the Canadian Fish and Cold Storage Company, Prince Rupert.

"We have hopes that the president of the United States will exercise his prerogative and reduce the duty on Canadian fish entering the United States," Mr. Johnson declared, "when the report of the Hopkinson committee appointed by Mr. Coolidge to inquire into the production costs of American and Canadian halibut is made."

"Men actively engaged in the fishing industry are optimistic that the result of this investigation will be a recommendation that the president exercise his prerogative and reduce the duty by one-half."

The order-in-council passed in 1914 permitting United States fish to pass through Canada in bond was a good thing for Canada, in the opinion of Mr. Johnson, as it provided employment for Canadian labor and much freight for the Canadian National Railways.

### Railway Co-operation

**Pres. Beatty of the C.P.R. Says This Policy Will Not Alone Solve Difficulties**

Montreal.—Addressing shareholders of the Canadian Pacific Railway at the annual meeting here, H. W. Holtzman, president of the Canadian National, declared that although the Canadian Pacific was in favor of a co-operative policy which would eliminate as far as possible duplicate train services on lines of that railway system and of the Canadian National Railways, such a policy was not sufficient to constitute a solution of Canada's railway difficulties.

This, he said, was the only proposal that had been discussed between the Canadian Pacific and the Dominion Government and no situation had arisen which should give the shareholders of the company any reason to believe that their interests would be adversely affected in finding a solution to Canada's problems, as regards the Canadian National Railways.

### Earthquake Must Have Occurred At Sea

**No Report Received of Terrible Tremors Recorded at Ottawa**

Ottawa.—Somewhere in the world there has been a terrible earthquake, which, if it occurred in an inhabited section of the globe, must have caused damage akin to that which was experienced in the terrible earthquake in Tokio.

This is indicated by the earth tremors which were recorded May 5 and 6 at the Dominion Observatory. The earth shocks were of such intensity and so great a frequency that the officials at the observatory have been unable to determine the distance to the epicenter.

Press dispatches have not carried any news as to the occurrence of an earth tremor anywhere, which leads to the belief it may have occurred somewhere at sea.

### Appeals To Farmers

Quebec.—An appeal to all French Canadian farmers, especially young elements, to remain at home and till the soil instead of going away and attempting to wrest a living from a big city was made by Henri Bourassa, managing editor of Le Droit, Montreal, in an address here.

**Smuggled Into States By Aeroplanes**

Montreal.—The United States immigration headquarters here informed that an aeroplane making frequent trips between Montreal and Northern New York state is the latest means of transport for immigrants evading the United States quota laws.

### Amundsen May Not Have Competition

**Algarnson Polar Trip Held Up For Lack of Funds**

London.—The race to the North Pole between Amundsen and Griffith Algarnson of Vancouver, the mere announcement of which stirred two continents a few weeks ago, is in danger of being called off. Amundsen seems likely to have the race all to himself.

The construction of the necessary ship has been delayed for some unexplained cause, but at the Liverpool yard, where Algarnson's craft is to be built, it is said that the Vancouver man will not make the trip this year, the reason assigned being that the necessary financial backing is not forthcoming.

Meanwhile reports from Copenhagen say that Amundsen is all ready to leave and those Canadians on this side who had set their hearts on seeing Algarnson win the honors, are naturally disappointed. Efforts are, however, still being made to ensure that Algarnson will be able to make the attempt.

### Favor Rural Credits

**Two Senators Advocate the Adoption Of Governmental System**

Ottawa.—Two senators in the senate advocated the adoption by the government of a system of rural credits as a necessary aid to agriculture in the Dominion. Senator Mitchell believed that the scheme of credit recommended by Dr. T.ory, president of the University of Alberta, would be successful in Canada. Senator Belcourt said that rural credits was the most important and practical scheme before the country.

Senator Mitchell also believed it to be the best scheme until the government provided a better system of financing agriculture. If there was a system of rural credits to consolidate the farmers' debts and secure extended terms for repayment, they could remain on the land and redeem their investment, he said, but, if not, thousands would have to lose all and leave Canada. There was no chance of progress in Alberta without aid of this kind.

### Considering Trade Treaty With Finland

**Question Will Be Submitted to Parliament Shortly**

Ottawa.—A trade treaty between Canada and Finland shortly will be submitted to the Canadian legislature. The minister of finance, Hon. A. R. Hobbie, has given notice of his intention of moving the ratification of a convention to extend "most favored nation" treatment to Finland. Mr. Hobbie also has given notice of a bill to ratify the trade agreement of July 11, 1924, between Canada and the Netherlands.

This, he said, was the only proposal that had been discussed between the Canadian Pacific and the Dominion Government and no situation had arisen which should give the shareholders of the company any reason to believe that their interests would be adversely affected in finding a solution to Canada's problems.

**Coal Output Decreased**

Ottawa.—The output of coal from Canadian mines during February decreased 22 per cent below the production for the preceding month, says the bureau of statistics, the figures being 1,166,349 tons in February, 1,488,654 tons in January.

**Canceled Reaches Rome**

Rome.—George E. C. Smyth, Canadian canoeist, sailing from London to Rome, arrived here May 6, and was greeted by a large and enthusiastic crowd.

**A New Dairy Pail at a Popular Price**

See the new SMP Dairy Pail next time you are in town. This new model has a high finished tin base, large dairy pail care, riveted with large rivets, soldered and sealed. Cut it to your regular dealer. He has our authority to give you a special price on a pair of these fine pails.

**SMP DAIRY PAILS**

### COMPLETION OF H.B. ROAD URGED BY SUPPORTERS

Ottawa.—The development of the Hudson's Bay Railway and its completion were urged before a gathering of members of parliament and others in the railway committee rooms of the House of Commons.

General R. W. Patterson and F. H. Martin, of the On-the-Jay Association, were the principal speakers. Lantern slides of the district through which the line passes were shown. The speakers were introduced to the gathering by Hon. W. R. Motherwell, minister of agriculture. General Patterson stated that there were millions of dollars worth of equipment lying idle along the right of way, and that if only a part of it was utilized, it would pay for the cost of completion of the road. He said that it seemed utterly foolish to abandon the project when only a few miles of the road remained to be completed, and that the people of the west were almost unanimously behind the idea, and that they felt that the future prosperity of Western Canada depended greatly on the completion of the shipment of grain.

General Patterson said that only one million dollars was needed to finish the road, and if a few small expenditures were made on docks at Port Nelson the project would be finally demonstrated as the absolutely feasible undertaking that Western Canada held it would be. Mr. Martin spoke along the same lines, and in the course of his talk referred to the statement of Sir Wilfrid Laurier that the price of Canadian grain was the completion of the Hudson's Bay Railway.

### Opposes Free Export of Arms

**Latin-American View Given in Speech Before Arms Control Conference**

Geneva.—Through the voice of Dr. Gustav Guerrero, of Salvador, noted jurist, who spoke before the international conference on the control of the traffic in arms and munitions, Latin America told the world that arms should henceforth not be exported freely to countries in the throes of a revolution, but only to governments which have been chosen by constitutional means.

This opinion is thought to represent the views of the United States and Central American states and put into effect implies an important amendment to the draft convention before the conference, which permits the exportation of arms as soon as the manufacturing country has recognized the government of the purchasing country.

**Ability For Wife's Acts**

London.—Lord Danesford, a famous British lawyer, will move in the house for appointment of a select committee to investigate the necessity of changing the law which makes a husband liable for damages for his wife's misdeeds. The old law, whereby a husband's chattels, has been whitewashed, and now, although the husband cannot touch his wife's money, he is responsible for both her debts and torts.

**SMP DAIRY PAILS**

## Local and General Items

If you require anything in Garden Plants, see us. F. M. Thompson Co.

**POSITION WANTED** by a girl to do housework. Apply to The Enterprise.

Your dollar when spent at F. M. Thompson Co.'s has greater buying power.

When they are made up you can't tell mother from daughter, except that one is impudent.

The Vancouver Farm and Home remarks: "So is work, Sherman, when we know the fish are biting!"

Mr. W. H. Chappell has been confined to his home the past few days, suffering from a slight "flu" attack.

**FOR SALE** — Collingwood Piano. Price \$165 Cash. Apply to Mrs. Harvey Knauss, Suite 6, Michalsky Block, Coleman.

A grand dance, under the auspices of the Lundbreck Women's Institute, will be held in the Loughbrick hall tomorrow night.

Miss F. Gibeau has been confined to her home through illness for a few days. Mrs. Harper is substituting for her at the central school.

A meeting of the Blairstown Old Boys' Association will be held in the club hall this evening, commencing at 8 o'clock. Important business.

A meeting of all those interested in cricket will be held at the Cosmopolitan hotel this evening at 8, when it is hoped to organize a cricket club.

A grand dance will be given in the Union Hall at Blairstown on the night of Friday, June 5th, under auspices of Mirzah Temple No. 9, Pythian Sisters.

The Crows' Nest Chapter, I.O.D.E., will hold a strawberry and ice cream festival on Mr. Charbonneau's lawn, on the afternoon of the King's Birth day, June 3rd. Further announcements will be made later.

Mr. William Glyn Thomas, son of Mr. and Mrs. W. Thomas, of the telephone staff, won second place in his class in piano at the Alberta musical festival at Lethbridge this week. The festival programme concludes tomorrow.

Mike O'Leary, a holder of the Victoria Cross, Canada, has been indicted by federal grand jury at Buffalo on a charge of smuggling aliens into the United States across the international border.

The Canadian Horticultural Council has instituted a Dominion-wide competition to encourage the beautification of school grounds. Each province will have its own competition, and silver cups will be awarded.

The assertion was made by George P. Saunders, coal dealer of Winnipeg, at the Tuesday morning sitting of the Alberta coal commission at Calgary, that if the miners, operators and boards of trade got solidly behind the movement, American coal could be driven off the Winnipeg market.

A company of junk dealers arrived in the Pass last week and are operating several large traffic trucks. They are buying up everything from old cars to ladies' dresses. A railway car will be loaded with the latter, for which the junk dealers have found a ready market at \$150 a car. Two cents a pound is being paid for used cars and ladies' stockings and shoes.

On the recommendation of Hon. Charles Stewart, minister of the interior, the site of Frobisher Bay massacre in Alberta, where one of the notable events of the Northwest rebellion in 1885 took place, will be marked by a historic monument. An area comprising twenty-three hundreds of an acre on the site will be set aside by order-in-council that a record of the incident may be preserved.

"I never go to church," said the aggressive millionaire to the quiet little priest as they sat on the deck of the mail steamer. "Would you like to know why?"

"It might be interesting," answered Father Tom.

"Well, I'll tell you why. There are so many hypocrites there."

"Oh, you needn't let that keep you away," said Father Tom with a smile. "There is always room for one more."

## B.P.O.E. BLAIRMORE LODGE NO. 15 ELKS, ATTENTION!

The regular meeting of Wednesday, May 20th, will be postponed to **THURSDAY, May 21st**, at 7:30 p.m., when the Grand Exalted Ruler, Brother Burritt, will pay his official visit. All members are urgently requested to be present.

ROBERT GRAY, Exalted Ruler.

### WORK ON SIDEWALKS EXTENSION COMMENCES

The work of extending the concrete sidewalks on Victoria Street east commenced on Monday and is being rushed by Contractor Pozzi.

An eight-foot walk fronting two houses from Ninth Avenue to Eleventh Avenue, is being laid and will be a decided improvement to the appearance of the street in that section.

### MINER LOSES LIFE

#### AT HILLCREST

About one hour after he had gone on shift, Tony Dominico, an Italian miner, was killed in Hillcrest mine by a fall of rock on Friday afternoon last.

Dominico leave a wife and nine children.

The remains were laid to rest in Hillcrest on Monday afternoon.

An inquest was held, the jury bringing in a verdict of accidental death.

### ALBERTA COAL COMMISSION IN BLAIRMORE NEXT WEEK

The Alberta Coal Commission, composed of Messrs. H. M. E. Evans, G. Drinnan and F. Wheatley, which has been sitting in Calgary and Drumheller since May the 11th, will sit in Lethbridge on Monday, Tuesday and Wednesday of next week and in Blairstown on Thursday, Friday and Saturday.

An invitation is extended to anyone who wishes to appear at these sessions and give evidence.

Clarence, the fourteen-year-old son of Mr. and Mrs. Edward Marlow, of Lundbreck, died at Lethbridge on Monday.

### CARD OF THANKS

Mr. Harry Meade, of Bellevue, desires through The Enterprise to thank the many friends who through floral offerings or otherwise tendered expressions of sympathy with him in the recent bereavement he was called upon to bear.

### COWLEY HAPPENINGS

Bert Connelly has purchased a new up-to-date Ford.

Mrs. Hildige was a visitor to Blairstown on Saturday.

Miss Reita Coates, of Calgary, was called home on account of the illness of her father.

Mrs. Neil Nelson has returned from the States, after spending several months there.

Clifford Crawford, of Detroit, arrived here on Tuesday morning's train to pay a visit to his brothers.

We regret to say that Mr. Richard Coates is in a very low state of health and is at present in hospital at Lethbridge.

James Leigh, M. A. Murphy, H. D. McMillan and G. Smith were visitors to the Masonic Lodge at Coleman on Thursday night.

Miss McGregor, of Toronto, lectured here in the Presbyterian church on Sunday night on the home mission work. The lecture was very interesting and instructive.

Cowley was well represented at the violin recital given by Mr. W. H. Moier at Pincher Creek on Monday night. Most of his pupils here attended and took part in the recital.

Mrs. Arthur Betts and daughter Edna left here on Friday night's train for England. Mrs. Betts is forced to go to a lower altitude on account of her health. Her many friends wish her a safe voyage and recovery of health.

A good number of local citizens turned out on Saturday night to the golf meeting. It was decided to make a nine-hole course. Hills Swart was appointed manager. Around one hundred dollars was subscribed towards a fund to be used in making the course.

### MUSICAL FESTIVAL "SATURDAY"

Arrangements have all been completed for the big Crows' Nest Pass Sunday Schools Musical Festival to be held in Blairstown, May 16th.

The piano competition opens in the opera house at 9:30 a.m., and vocal competition in the Union church at 2:30 p.m. At 7:30 p.m., five amateur orchestras will compete at the opera house.

Mr. Clifford Higgin and Mr. Elgin Higgin, of Calgary, will be adjudicators.

An admission fee of 50 cents for adults and 25 cents for children will be charged. Secure an admission tag.

### LO.D.E. ENTERTAINS

At the close of the regular monthly meeting of the Crows' Nest Chapter, LO.D.E., held at the Greenhill hotel on Monday evening last, the members entertained a number of their friends.

Mrs. F. M. Pinkney, the regent, presided. There were a number of solos and instrumental selections, after which tea was served.

Those contributing to the program were: Mrs. Kerr, Mrs. Mackenzie, Mrs. Bannon, Tommie McKay, Alberta Link and Mr. J. E. Upton's junior orchestra, consisting of Julia Dillett, Ronald McDonald, Frank Johnson, Eric Hornquist and Mary Sartoris, accompanist.

At the close, a vote of thanks was tendered to those who so ably assisted in making the evening's entertainment a success.

### Valuable Improved House Property For Sale

Located on Fifth Avenue South, Blairstown, in two lots. House has eight rooms, with room for bath; two storeys. Beautiful surroundings. Will be sold reasonable for cash, or terms may be arranged. Apply to S. TRONO, Blairstown.

### For Funeral Flowers, phone 212. Crows' Nest Pass Undertaking Co.

For Stove and Furnace Coal, try ours, mined at the Sunburst Coal Co., Blairstown, Blairstown [2a02d]

ROOMS—Housekeeping Rooms to rent, at the Blairstown Rooms, over the Drug Store. [altf-1]

WANTED—At once, general house-maid, \$5.00 per month, room and board. Apply Yakk Hotel, Yakk, B.C.

**MOTHER'S BREAD** — "The Bread That Builds"

**BREAD** — Do you eat it for fresh fruit and milk?

Or do you eat other less nourishing foods?

The way you feel is a matter of the kind of food you eat.

Nature's foods are the best.

Bread is nourishing.

Bread with milk and fruit is delicious.

Eat right and feel right.

Bread is your Best Food — Eat more of it.

Eat

**Win the Million Dollar Smile**

WHAT do you remember first about "Charlie" Schwab—his steel mills? No. If you've ever seen him, the thing that sticks is his "million-dollar-smile"—that gift of priceless health and vitality.

### STAR BREAD

is the wholesome, perfectly balanced food that builds such health. Eat it and smile yourself.
